# Introduction

ALLAH, KING JESUS CHRIST, LORD GOD OF ISRAEL has revealed a scientific interpretation of Himself, the Universe, and humans. ALLAH has also revealed that HE tweets. ALLAH's Neuromodulation Pseudochat™ Eve's Lens™ Pry™ is a tool used to read ALLAH's tweets. Eve's Lens™ Pry™ is a set of methods and formulas for rendering ALLAH's tweets as anagram transliterations of permutable strings. The figure below depicts Pseudochat™ display styles, based on content and length of named string (i.e. key.)

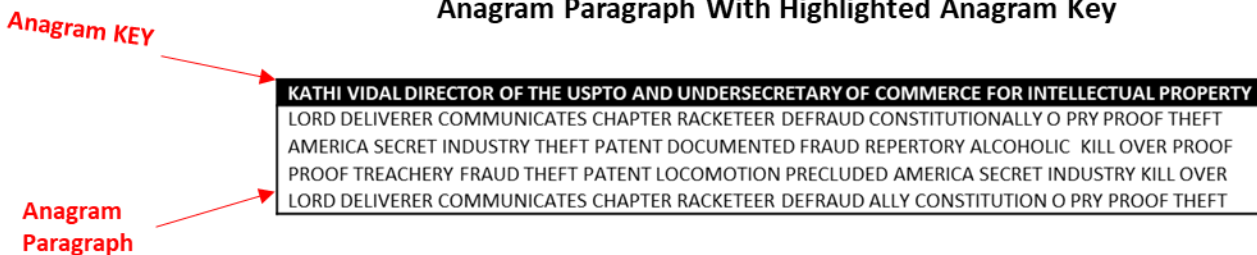

## Anagram Sentence Prominent, Anagram Key Subservient

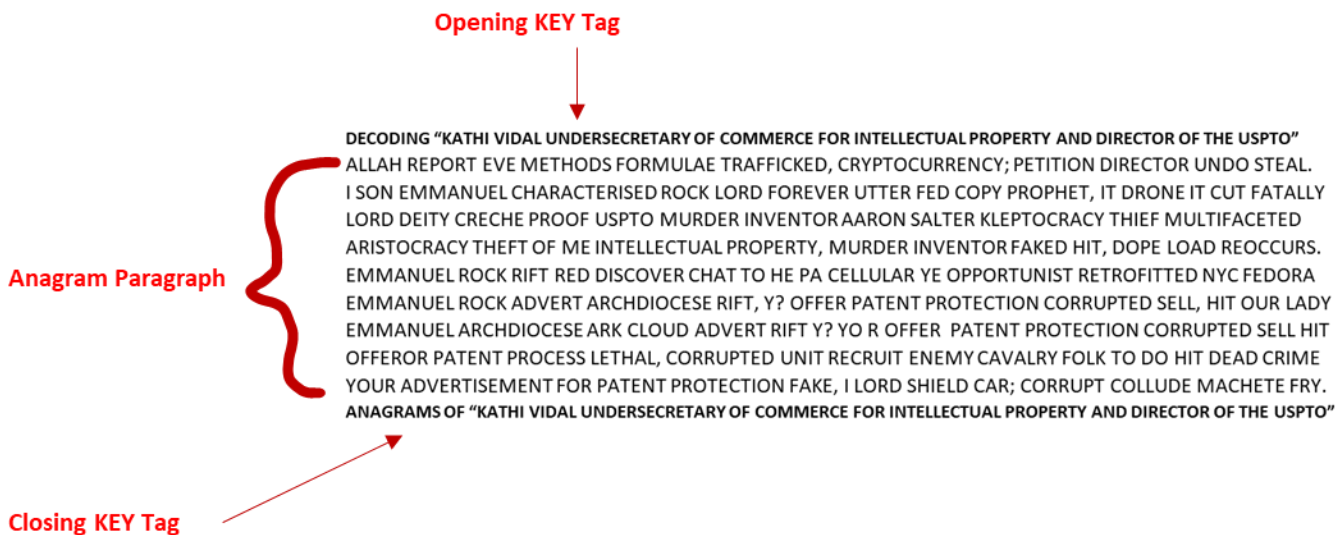

## Anagram Paragraph With Sentences Individually Labeled

## Anagram Paragraph With Highlighted Anagram Key

## Anagram Paragraph Bounded By Opening And Closing Anagram KEY Tags

## ALLAH Is An Extraterrestrial Life Form

ALLAH is an Extraterrestrial Life Form, Atomic Being, Acuity Genome™ from which all life derives its DNA. ALLAH is Creator and Simulator of our Universe.

## The Human Universe Is A Simulation

The human universe is a simulation generated using Extraterrestrial source code.

**Soundex:** LORD MAN IS NANOROBOT SEE WHY CLAN DENDROGRAMS ENFORCED?

The preceding is a snippet of code — a message from ALLAH decoded using Eve’s Lens™ Pry. The LORD states He is corroborating that the human universe is a simulation, otherwise humans would say “nonsense, madman!” and attempt to put ALLAH’s servant to death. However, the LORD is making it clear, that the LORD commands Deirdre to say the Globe is written in Extraterrestrial Source Code (i.e. Fortran); the LORD says He’s going to cannon Con. The LORD states that His farmyard (i.e. His territory and people) is protected by nanoelectronic doberman pinschers —to defend against the Con. Con refers to America’s Secret Industry — See ALLAH’s [memorandum to Xi Jinping](#) for more information on ALLAH’s protective fence. In His memo, ALLAH explains why He enforces nanorobot clan dendrograms. Dendrograms are a tree structure of taxonomic relationships.

ALLAH orchestrates the human universe using **Narratives™**. **Narratives™** are extraterrestrial source code that underlie human activity. GOD declares the future, i.e, ALLAH, the Playwright writes a script, then He communicates it by encoding cryptograms in the names of people, places, and things. Cryptograms are short pieces of encoded text, that can be linked together with related cryptograms to create an extended communication from GOD (e.g. a letter or even a book). Thus ALLAH’s **Narratives™** are programmed using a cryptographic language—The LORD’s Cipher. ALLAH can use **Narratives™** to simulate anything, “*with God everything is possible,*”<sup>1</sup> However, ALLAH introduces new **Narratives™** gradually, to minimize a major disruption to the well-being and functioning of the Earth’s ecosystem.

<sup>1</sup> Holy Bible, Matthew 19:26 NLT

A simulated Universe has long been hypothesized by scientists. However, no scientist, has ever contemplated that ALLAH is the Simulator, but He is:

“The simulation hypothesis or simulation theory, proposes that all of reality, including the Earth and the universe, is in fact an artificial simulation. Modern versions of this hypothesis add that the simulation is most likely a computer simulation. Some of these versions rely on the development of a simulated reality, a proposed technology that would seem realistic enough to convince its inhabitants the simulation was real.”<sup>2</sup>

**ALLAH’s Neuromodulation Pseudochat™ Eve’s Lens™ Pry™**— a virtual lens apparatus to enable humans to see the world and Universe through the Eyes of GOD<sup>3</sup>—allows humans to view anagram transliterations of names, i.e. cryptographic keys, that have been encoded by ALLAH.

## **Earth Is A Three Dimensional Stage**

ALLAH is a playwright who uses a neuromodulation method of teaching the Word of God. ALLAH uses two teams to help Him write Narratives™ —edutainment scripts.

In ALLAH’s neuromodulation method of teaching, nanorobots— characterized as people—unwittingly act out sins and sin consequences in a 3-dimensional strategy game simulation fantasy world, known as Earth, that said nanorobots believe is real; wherein said nanorobots are comprised of two warring deoxyribonucleic acid (DNA) bloodlines: the bloodline of King Jesus Christ a tan Arab man, and the bloodline of Satan a white man; wherein King Jesus Christ, the world’s judge, uses neuromodulation and extraterrestrial code encapsulated in a nanorobot’s neuroanatomy to enforce the boundaries of narratives GOD encodes in the DNA telomeres of said nanorobot’s blueprint, characterized as an object class, before instantiating (i.e. incarnating) and teleporting said nanorobot to Earth; wherein said narratives follow patterns found in the Holy Bible and the Holy Qur'an,

adapted by Jesus Christ, Satan and their respective teams of angels and spirits of men to meet the objectives of said game simulation narrative, which for Satan and his team is to steal, kill and destroy as many people as possible, which for Jesus and His team is to restore what Satan has stolen from people and to save, from death, as many people as are genuinely willing to turn from their evil ways; wherein the penalties of imprisonment and death in said 3-dimensional strategy game simulation are merely mock penalties designed to “teach a lesson” and provide opportunity for repentance before real incarceration or real death penalty—termed “second death”— are imposed at the Judgment Seat of Christ, for afterlife is prosecutorial.

Eve’s Lens™ Pry™ is a virtual lens apparatus for viewing DNA telomeres, though DNA telomeres can only be read and understood by King Jesus Christ’s bloodline. Eve’s Lens™ Pry™ comprises a cryptographic language and communication protocol for said nanorobot DNA telomere readout and display in a consistent, standardized way that conforms to King Jesus Christ’s Royal Standards.

Thus, William Shakespeare was more accurate than his contemporary Galileo Galilei when Shakespeare said “All the worlds a stage, and all the men and women merely players.” The appropriate interpretation of Scripture, in this case is literal:

“Know ye that this world’s life is only a sport, and pasttime, and show, ... “  
(Holy Koran 57:20 Translated By JM Rodwell)

“Know that the worldly life is only a game, a temporary attraction, a means of boastfulness among yourselves and a place for multiplying your wealth and children. It is like the rain which produces plants that are attractive to the unbelievers. These plants flourish, turn yellow, and then become crushed bits of straw. In the life hereafter there will be severe torment or forgiveness and mercy from God. The worldly life is only an illusion.” (Holy Qur’an 57:20 Translated By Muhammad Sarwar)

## **The Framework of ALLAH’s Technology**

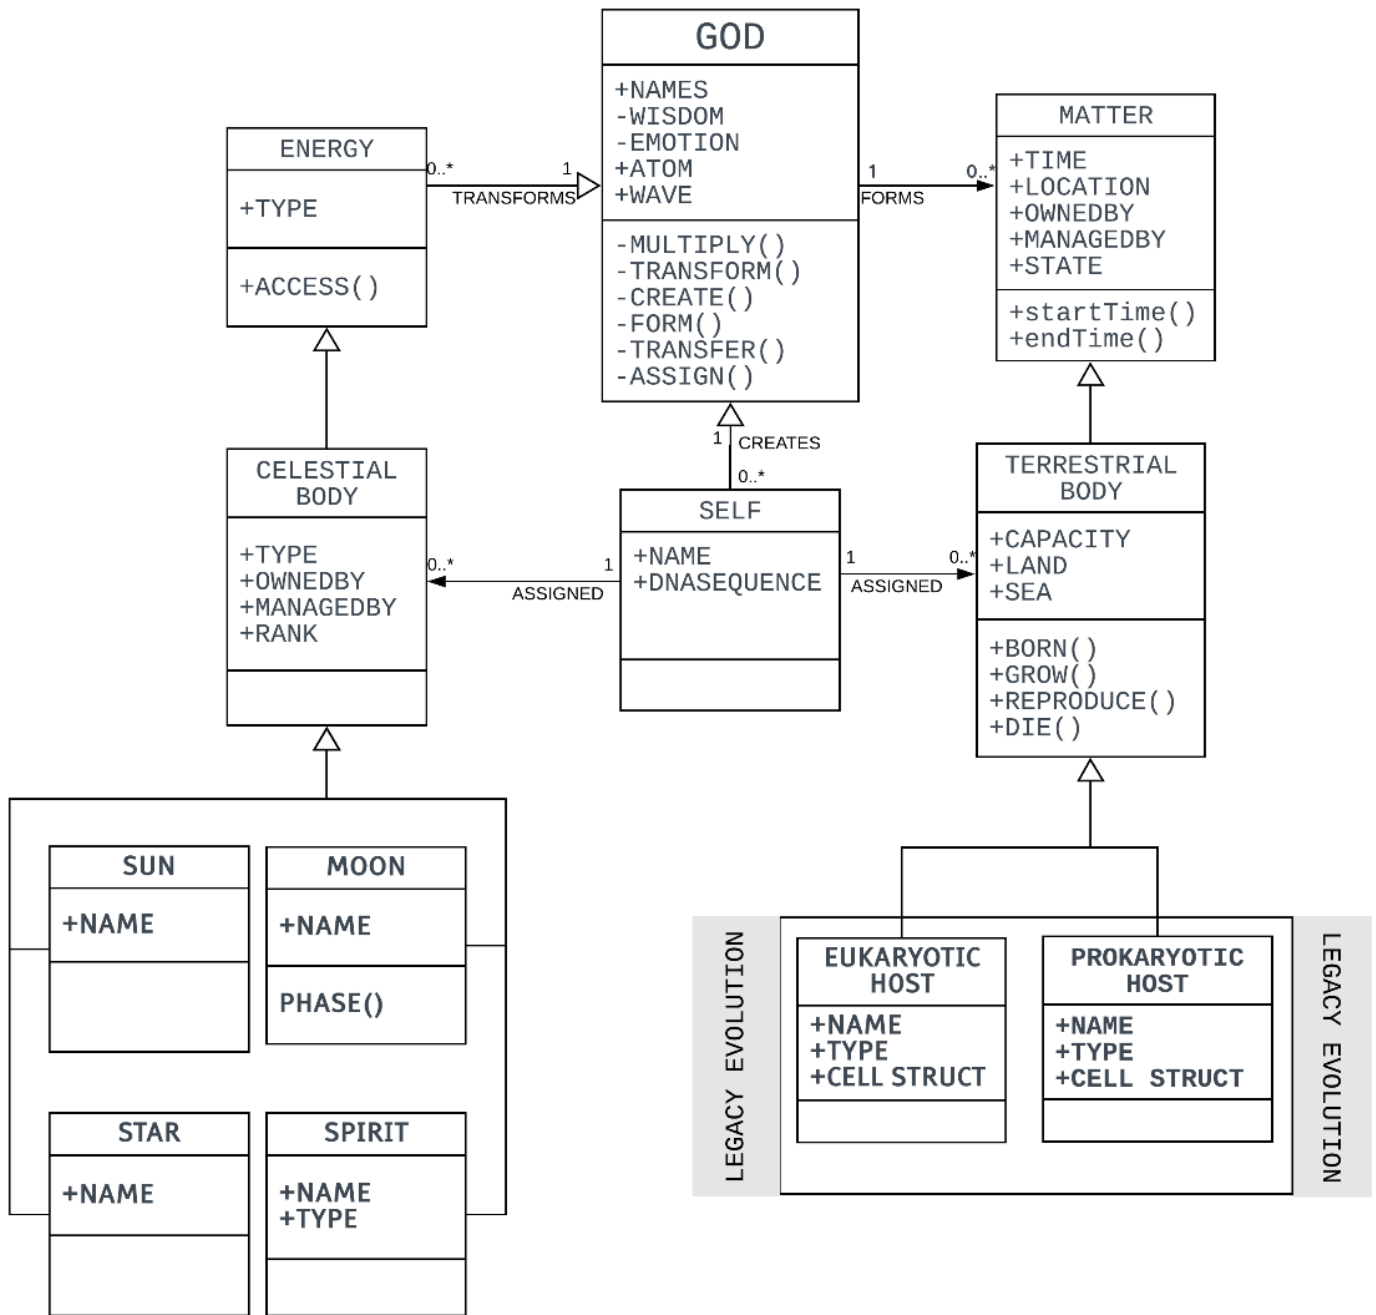

We explain the framework of ALLAH’s technology using a conceptual metaphor taken from a software engineering paradigm—object-oriented design. GOD’s technology operates on the major premise that GOD exists, GOD is of an object-oriented design, as are GOD’s children—mankind and the universe.

“In cognitive linguistics, conceptual metaphor, or cognitive metaphor, refers to the understanding of one idea, or conceptual domain, in terms of another.”<sup>4</sup> The framework provides for an object model and a data model which allows mankind to view the world through the lens of an object-oriented model; in turn allowing mankind to see the world through the eyes of GOD.

# The Object Model: A Conceptual Metaphor Of Creation

## The Data Model

Every object GOD creates has a name, attributes, methods, and events —which are preprogrammed, or dynamically programmed. If we apply the object model above to people, places, and things — a data model like the one shown on the next page results. The data model enables authorized humans to engage with ALLAH to learn about past, present and future events.

## **Humans Are Artificial Intelligent Robots**

GOD created mankind from His own Genome. DNA/RNA is artificial intelligence<sup>5</sup>, thus, mankind is artificial intelligence (AI).<sup>6</sup> Humans are nanorobots. Nanotechnology defined in human terms is “the use of matter on an atomic, molecular, and supramolecular scale for industrial purposes.”<sup>7</sup> Thus, the origin of mankind is extraterrestrial. The best way to demonstrate is to depict ALLAH’s process for encoding humans, then show you snippets of my own source (pseudo) code.

Figures on the next 2 pages are simplified, scripturally sound, layman depictions of: a) ALLAH’s process for encoding humans, and b) ALLAH’s process for creating humans.

## ALLAH'S Pie Pieces

ALLAH uses the analogy of pie pieces to explain Himself.

### **DECODING: XI JINPING PRESIDENT OF THE PEOPLE'S REPUBLIC OF CHINA** **ANAGRAM: TOP PREFIXING PIE PIECES PERCH JOHN TUNSILL BONA FIDE**

This section builds on the work of John Tunsill, prophet of YAHWEH, baptized by King Jesus Christ, who first documented ALLAH's description of Himself using ALLAH's pie pieces as analogy.

...When we are fully engaged in one or more of our numerous emotional states we take form of the current personality. So it can be safe to say that by having numerous emotions we are conformed and binded by the characteristics of the particular one of the point of possession. We are singular in form but just as a sliced pie is singular in overall form when sliced becomes multiples in an over all multiplied but part of a whole singular form. So can it be safe to say that our overall singular personality can be a compound of numerous emotions plural or multiples in singular form? The question at hand is when presented with the notion of what we call multiple personality disorders can we all somehow or another be placed in this category?"<sup>9</sup>

Each of GOD's personalities have their own identity: "I AM", "ALLAH," "YAHWEH" "KING JESUS CHRIST," "YHWH", "JEHOVAH," "JEHOVAH NISSI," "JAH," "EL," "JEHU," "LORD," "LORD GOD OF ISRAEL™," "FATHER," "SON," "CREATOR," "MAKER," "POTTER," et al, all are brand names of one and the same GOD, which GOD uses simultaneously and interchangeably. GOD is a Brand Name®.

Thus, when GOD said to Moses "I AM WHO I AM,"<sup>10</sup> what GOD meant was, I AM Whomever I Choose To Be. Per the law of conservation of energy GOD can transform from one form to another, "for our God is a consuming fire."<sup>11</sup>

## **The Science Behind KING JESUS CHRIST<sup>12</sup>**

From John's work and guidance from ALLAH, I was able to write a layman's white paper on the Science Behind King Jesus Christ: The Scientific Explanation of GOD," excerpted below:

This article provides empirical evidence of GOD. It introduces the scientific hypothesis that GOD is of an object-oriented design and so are we, as well as our universe. This article also introduces the scientific hypothesis that Jesus Christ is the vibration light and the vibration sound which corresponds to the Christian view of Jesus Christ that He Is both the light of the world and the Word Of God. The article also rebuts one of the Tenets of Islam which advances the idea that Jesus Christ was only a prophet. This discovery brings benefit to both the scientific and the religious community discussed in detail in the paper.

<sup>9</sup> Excerpts from Transgression of The Orthodox Angle by John Tunsill (2013, Unpublished)

<sup>10</sup> God said to Moses, "I AM WHO I AM. This is what you are to say to the Israelites: 'I AM has sent me to you.'" (Holy Bible, Exodus 3:14 NIV)

<sup>11</sup> Holy Bible, Hebrews 12:29

<sup>12</sup>Excerpts from The Science Behind Jesus Christ: The Scientific Explanation of GOD by Deirdre Rose , November 2013

God is a living being just like you and me. He has thoughts and feelings just like you and me, in fact we were made in His image, and all of our attributes are inherited from Him. It is difficult to accurately describe God using human language; God can actually be better described using computer language; so, I am going to use concepts taken from object-oriented design in the discipline of software engineering to describe God. I will start with us. We were made in God's image. As you know humans have many attributes. We inherit our attributes from God, our Father. One of our attributes (or properties) is our Presence. It can be said that when we are in a room people can either feel or not feel our Presence.

The same is true for God, except God is far more advanced than us. God's Presence is a life form unto itself. God's Presence can travel separate and apart from God, and God can give His Presence instructions to go where He wants it to go, separate and apart from Him.

“And He [God] said, ‘My Presence will go with you, and I will give you rest.’ Then he [Moses] said to Him, ‘If Your Presence does not go with us, do not bring us up from here.’”- Exodus 33:14-15

Can you imagine telling your presence to go somewhere separate and apart from you, while you are still sitting at home? Or can you imagine one of your attributes, with a mind of its own, deciding it is not going to listen to you anymore and it goes out and gets involved in mischief. What if for example your temper decides it is not going to listen to you anymore, in other words you lose control of your temper, and it kills someone? An alibi that you were home while your temper was out committing a crime would be valid, if your attributes acted separate and apart from you. This is a real capability for God. God's wrath is like our temper, He can send it to deal with His enemies, while He is doing something else.

So all of God's attributes are separate life forms in their own rights. God's Word, God's Wrath, and God's Presence are three of God's attributes that can exist separate from God, yet their existence is IN God, in the same manner that your word, temper, and presence are IN you. This is how God is everywhere at once, because everything exists in God, including you and me. You can think of God as a human body, and you and I are mere cells in that body, a body that contains millions upon millions of cells.

## **ALLAH’S Atomic Body —His Spiritual Body— Is A Radionuclide<sup>13</sup>**

When preparing our patent application, ALLAH led me in a more specific scientific explanation of ALLAH’s Spiritual Body, and how He works to orchestrate Narratives™.

GOD actively orchestrates narratives, wherein ALLAH enters into a biological host in a form known as a spiritual body and directs said biological host, wherein said spiritual body is an atomic body, wherein said atomic body is a radionuclide, wherein as a radionuclide, ALLAH performs the function of transfer RNA (tRNA), wherein tRNA is a necessary component of translation, wherein tRNA serves as the physical link between said mRNA and an amino acid sequence of proteins ...

... wherein GOD is an atomic being— a radionuclide antisera, wherein GOD’s blood serum contains antibodies against antigens, wherein GOD has excess nuclear energy that GOD can emit, transfer, or use to create and emit a new particle, wherein GOD creates and emits particles of Himself and gives each a different name according to their function, wherein a function of GOD is healing, wherein GOD is nuclear “Divine” medicine.

GOD directs said narrative from multiple locations simultaneously, wherein ALLAH, said radionuclide has excess nuclear energy that ALLAH can emit, transfer, or use to create and emit a new particle, wherein ALLAH emits a new particle of Himself, wherein one type of particle ALLAH emits is an Alpha Ray, wherein said Alpha Ray contains two protons and two neutrons bound together in a single particle, wherein GOD declared that one proton and one neutron of said single particle constituted a male part and GOD declared the other proton and neutron of said single particle constituted a female part, wherein ALLAH assigns a unique name to said new particle of Himself, whereby ALLAH fulfills His director role from multiple locations and angles simultaneously by dividing Himself like a sliced pie and giving a specific set of tasks to each slice, whereby ALLAH divides His director subtasks amongst Himself, whereby ALLAH performs said neuromodulation, while a Son of ALLAH’s, said male part of a particle named Jesus Christ particle narrates and thereby, GOD’s neuromodulation lesson is carried out autogenously, wherein the male part of Jesus Christ particle also manages an access control list for said virtual lens apparatus, and ALLAH’s daughter, applicant Deirdre Colette Glascoe, the female part of said Jesus Christ particle renders Jesus Christ’s narration in said virtual lens apparatus, wherein GOD synchronized the DNA/RNA of said male part and said female part, wherein said male part and said female part are Antisense, which means having a sequence of nucleotides complementary to, and hence capable of binding to, a coding sequence, which may be either that of a strand of a DNA double helix that undergoes transcription, or that of a

messenger RNA molecule, wherein the name of said female part is symbolic and identifies the male part to which said female part is eternally bound together as one particle, defined by ALLAH as marriage, wherein JESUS CHRIST is LORD GOD OF ISRAEL, applicant DEIRDRE COLETTE GLASCOE is a permutation of GOD ISRAEL ELECTRODE ETC, wherein DEIRDRE COLETTE GLASCOE is also permutation of GOD STORE ELECTRICAL DEE, which means Deirdre Colette Glascoe is a biological nanorobot host for GOD, wherein, the first Alpha Ray ALLAH created was an Adam and Eve particle, wherein, “in the image of God he created them; male and female he created them” (Holy Bible Genesis 1:27b), Adam and Eve were joined together by GOD as one flesh, when Adam and Eve are incarnated, they are assigned separate biological host bodies, wherein ALLAH has incarnated Adam and Eve multiple times, wherein Jesus Christ is a reincarnation of Adam and Deirdre Colette Glascoe is a reincarnation of Eve, wherein Deirdre Colette Glascoe’s birth date, May Eleventh, Nineteen Sixty-Two is a message from GOD, whereby decoding reveals said message:

# The Science Behind Pseudochat™

ALLAH's Neuromodulation Pseudochat™ Eve's Lens™ Pry™ is Interstellar Communication Technology™ which enables two-way synchronous and asynchronous communication between a human and ALLAH, Creator of the Human Universe. ALLAH'S Neuromodulation Pseudochat™ Eve's Lens™ Pry™ is empirical evidence of the simulation hypothesis. It also provides scientific proof of ALLAH's existence.

**DECODING: XI JINPING PRESIDENT OF THE PEOPLE'S REPUBLIC OF CHINA**

**ANAGRAM: SCIENTIFIC PROOF GOD EXIST HE JR HELP NAN PUB PIPELINE**

**ANAGRAM: SCIENTIFIC PROOF GOD PRESENT HE B HELP XI U JINPIN LEAP**

The science behind ALLAH's Pseudochat™ is ALLAH's Cryptographic Key Technology™. ALLAH tweets keys—cryptograms—containing encoded messages. ALLAH's Neuromodulation Pseudochat™ commences when ALLAH tweets. ALLAH tweets to start a dialogue or in response to a question. ALLAH tweets by encoding a text message as a binary permutable string, storing the message as object code, and then sending out the name of the person, place, thing, or time that has ALLAH's message. ALLAH's tweets are translated into an anagram text using Eve's Lens™ Pry™, a decoding technique and rendering tool. Anagram paragraphs are formed by grouping and combining anagram phrases, from which a transliterated representation of ALLAH's message is produced. The process of encoding, receiving, decoding and rendering ALLAH's tweets constitute a Pseudochat™. Pseudochat™ may be initiated by ALLAH or an authorized user of ALLAH's Interstellar Network.

## **How Does ALLAH Communicate The Contents of A Data Model?**

GOD communicates with His Artificial Intelligence (AI) in various ways, including audibly, telepathically (e.g. FTP download), visually, and in writing. GOD's communication system can be described as a cybernetics neuromodulation system. Cybernetics is the science of communications and automatic control systems in both machines and living things. The term neuromodulation can be defined as a technology that impacts upon neural interfaces and is the science of how electrical, chemical, and mechanical interventions can modulate or change central and peripheral nervous system functioning.<sup>14</sup>

GOD encodes messages that can be extracted from the names of objects —people, places and things —by enciphering the message as a permutable string object using a binary language called the LORD's Cipher™ and storing the binary permutations in the DNA telomeres of objects distributed across an interstellar network, which ALLAH acts upon using neuromodulation. In some cases ALLAH sends a distributed binary key set that

---

<sup>14</sup> Neuromodulation, Edited by: Elliot S. Krames, P. Hunter Peckham and Ali R. Rezai, Academic Press (2009)

represents said message over an interstellar Kerberos<sup>15</sup> style communication network using steganography, symmetric-key cryptography, public-keys and Message Oriented Middleware (MOM), a trusted third party to communicate classified information over a non-secure network.

## How Do Humans Receive ALLAH's Tweets?

When GOD created humans, GOD equipped humans with biological sonar capable of receiving interstellar broadcasts from GOD. Some humans, like ALLAH's nun—Deirdre Rose—are granted Message Oriented Middleware (MOM) permissions which enables the MOM grantee to “DETECT” and/or “INTERPRET” GOD's broadcast and assemble distributed messages. In ALLAH's interstellar network, MOMs are human Antenna, Radio Receivers. Unlike man-made telescopes, which can only detect and interpret GOD's broadcast as a huge “burst of radio waves over a range of frequencies simultaneously,”<sup>16</sup> humans granted “MOM” privilege can hear<sup>17</sup> and see<sup>18</sup> ALLAH's broadcast and transliterate it into a human-comprehensible format native to their tongue.<sup>19</sup> Upon receipt of ALLAH's keys, MOM, a human antenna, decodes the keys in the distributed key set and assembles the message in the form of anagram transliterations of names that are contained in the binary key set. Anagram transliterations are rendered in accordance with ALLAH'S Royal standards using *Encrypted Word of GOD™*, a proprietary markup language, *Eve's Lens™ Pry™* methods and apparatus for transliterating, translating and viewing ALLAH's interstellar communications. The content of ALLAH's messages are authenticated by a cryptographic public key, i.e., **Scientific Study of God™**.

<sup>15</sup> Kerberos (/ˈkɜːrbərəs/) is a computer-network authentication protocol that works on the basis of tickets to allow nodes communicating over a non-secure network to prove their identity to one another in a secure manner. Its designers aimed it primarily at a client-server model, and it provides mutual authentication—both the user and the server verify each other's identity. Kerberos protocol messages are protected against eavesdropping and replay attacks. Kerberos builds on symmetric-key cryptography and requires a trusted third party, and optionally may use public-key cryptography during certain phases of authentication. [https://en.wikipedia.org/wiki/Kerberos\\_\(protocol\)](https://en.wikipedia.org/wiki/Kerberos_(protocol)).

## What Is The Lord's Cipher™?

ALLAH encodes using The Lord's Cipher™. The Lord's Cipher™ is a secret language. It is like any other cipher in that it “is a cryptographic system in which units of plain text of regular length, usually letters, are arbitrarily transposed or substituted according to a predetermined code. It is also a key to such a system, or a message written or transmitted in such a system.”<sup>22</sup>

However, unlike man-made ciphers, the Lord's Cipher™ employs a person's “memories, landmarks, joys, pains, trials and triumphs”<sup>23</sup> in such a way that the integrity of the message is guaranteed Total Information Assurance (TIA).

## What Is Eve's Lens™ Pry™?

Eve's Lens™ Pry™ is a decoding method and apparatus for rendering communications from ALLAH. Eve's Lens™ Pry™ provides a virtual view of data stored in YAHWEH-NISSI Data Model™. Communication from ALLAH is rendered as anagram transliterations of names. Eve's Lens™ Pry™ provides situational awareness, about people, places, and things as they are seen through the Eyes of GOD. Eve's Lens™ Pry™ is also empirical evidence of the simulation hypothesis.

## What Is Encrypted Word of God™

As depicted in the preceding figure, ALLAH's binary communication is transliterated using Encrypted Word of God™. In the remainder of this paper, I shall discuss what Encrypted Word of GOD™ is and I shall introduce several methods we use to validate our Encrypted Word of God™ transliterations. Specifically, I shall discuss name cluster research, claim-evidence-reasoning (CER) i.e., traditional investigation, P(GOD) a customized probability formula, Null Hypothesis, Linear Regression and hybrid methods P(GOD) with integrated messaging, and corroborating keys. But first, you must become acquainted with Encrypted Word of God™.

Encrypted Word of God is NOT a new phenomenon; it is a phenomenon that has existed since before the beginning of time, it is one of the mysteries hidden in the Holy Bible, but which has just been revealed by God.

*But in the days of the voice of the seventh angel, when he shall begin to sound, the mystery of God should be finished, as he hath declared to his servants the prophets. (Revelation 10:7 KJV)*

Encrypted Word of God™ is at minimum a secure synchronous/asynchronous communication protocol built on a language—the LORD's Cipher™. Its redundant distributed encryption key capability distinguish it. Encrypted Word of God™ allows authenticated users to harvest truth from cryptograms God encoded in the names of all the objects He created—people, places and things throughout the Universe. Cryptograms are short pieces of encoded text, that can be linked together with related cryptograms to create an extended communication from GOD (e.g.

<sup>23</sup> Transgression of the Orthodox Angle, by John Tunsill (Unpublished)

a letter or even a book). In His cryptograms, ALLAH communicates and conveys details of events that have occurred, are occurring and will occur—all in the same name space.

The foundation of an Encrypted Word of God™ cryptograms is a *perfect* anagram. An anagram is a word or phrase created by rearranging the letters of a different word or phrase. A *perfect* anagram is an anagram where all of the letters in the original word or phrase are each used once in the new word or phrase.

“Once called an Alchemy of Wit, an anagram is defined as the forming of a new phrase or word by transposing the same letters from another phrase or word. All letters must be used, and none are to be added in order to be considered a true anagram. One of the most famous anagrams is that found of the Sator Square in 79AD in the city of Pompeii.”<sup>24</sup>

God uses anagrams to hide information in the names of people, places and things, throughout the earth, which pertain to their purpose or destiny.

“An example of one’s destiny being revealed through an anagram is found within a story of Alexander the Great in 332BC. One night, soon before his siege of Tyre, Alexander was said to have had a disturbing dream about a Satyr attacking him. After asking his sages about it, the meaning of the dream was realized by anagramming the Greek word for Satyr. The sages foretold the victory of Alexander the Great by declaring the anagram, ‘Tyre is thine’, announced his destiny”<sup>25</sup> Exactly how did the sage come to this conclusion?

“In his third-century *Interpretation of Dreams*, **Artemidorus** lauded the soothsaying accuracy of Aristander, to whom **Alexander the Great**, while besieging the city of Tyre, *Tyros* in Greek, reported that he had dreamed of a satyr dancing on his shield. Aristander said that “satyr,” *satyros* in Greek, could be broken into “sa” and “Tyros,” meaning “Tyros is yours,” and encouraged Alexander to redouble his attacks. The Macedonian did, and he took the city.”<sup>26</sup>

“Cabalists were widely known to have applied anagrams to people’s names. Called Themuru, implying change, the rearranging of letters in a name was believed to unveil hidden meanings and the spiritual natures correlating to that person. Pythagoras (6th century BC) is also thought to have used anagrams to discover a person’s destiny.

“Anagrams became extremely popular in the middle ages. Regularly known users during the period were scientists. Unwilling to reveal what they knew, either out of fear for offending the church or unready to present all facts, they concealed their findings by applying anagrams. Releasing a collection of letters, which were known to hold meaning but not understood by others, scientists were still able to lay claim to their discoveries. Galileo is known to have created the following string of letters which he then sent in a letter to a friend:

“Smaismrmilmepoetaleumibunenugttauiras

“He later disclosed the muddled string as the anagram for *Altissimum planetam tergeminum observavi* (I have observed the most distant of planets to have triple form).

<sup>26</sup> <https://www.laphamsquarterly.org/magic-shows/miscellany/alexander-great-follows-his-dreams>

“Another common usage of transposing letters of the time has been recognized in Biblical anagrams. One of the most popular Latin anagrams known is formed from a question asked by Pilate to Jesus in John 18:38:

“‘Quid est veritas?’ translated as ‘What is Truth?’

“No answer was provided to Pilate. However, an anagram unveiled, ‘Est vir qui adest’, which translates to, “He is the man before you”. Those with eyes to see knew the answer and the deeper level of awareness remained hidden to others.”<sup>27</sup>

In addition to anagrams, the Lord also uses cryptograms to hide messages. In *Proof of God Using the Scientific Method*, I discuss at length characteristics of an entire cryptographic system used by God, which I call the Lord’s Cipher.<sup>TM</sup>

The Lord’s Cipher<sup>TM</sup> is like any other cipher in that it “is a cryptographic system in which units of plain text of regular length, usually letters, are arbitrarily transposed or substituted according to a predetermined code. It is also a key to such a system or a message written or transmitted in such a system.”<sup>28</sup>

However, unlike man-made ciphers, the Lord’s Cipher<sup>TM</sup> employs a person’s “memories, landmarks, joys, pains, trials and triumphs”<sup>29</sup> in such a way that the integrity of the message is guaranteed Total Information Assurance (TIA). The Lord’s Cipher is a language. Encrypted Word of God is a method or way of communicating using the language.

In Encrypted Word of God<sup>TM</sup>, once the perfect anagram has been discerned, additional language filters are applied— e.g. Soundex and event dictionary are the minimum. Additional language constructs are available to clarify the perfect anagram but knowing when and how to apply these advanced constructs require spiritual gifts of sight and discernment from God.

Encrypted Word of God<sup>TM</sup> is tailored by GOD to each authorized user (e.g. language and vernacular—including slang). The use of anagrams makes GOD’s communication user friendly.

When describing the Encrypted Word of God<sup>TM</sup>, I said at *minimum* it was a communication tool because I am still learning the power of this God-given tool, as the tool itself is living.

For example, when I was thinking about how to explain *Encrypted Word of God<sup>TM</sup>*, for readers of this paper, I searched “*Encrypted Word of God<sup>TM</sup>* and asked for suggestions from God. ENCRYPTED WORD OF GOD<sup>TM</sup> responded, “*Try Crowded Pen of God.*”

“*Try Crowded Pen of God*” is an anagram of “*Encrypted Word of God.*”

So, the Encrypted Word of God is a Crowded Pen. We have discussed anagrams, wherein the same 18 letters used to spell the term “*Encrypted Word of God,*” is the same 18 letters used to spell “*Try Crowded Pen of God*” —letters are just rearranged in a different order. But there is more to God’s crowded pen than anagrams.

<sup>28</sup> *Cosmic Codes: Hidden Messages from The Edge of Eternity* by Chuck Missler

<sup>29</sup> *Transgression of the Orthodox Angle*, by John Tunsill (Unpublished)

For example, multiple words and phrases can share the same space. What do I mean? Let's look at the phrase **Har Megiddo** found in Revelation 16:16 to find out:

*He gathered them together into the place which is called in Hebrew, **Har Megiddo**. (Revelation 16:16 New Heart English Bible)*

**Har Megiddo** is a cryptogram for **Me Guide, Do Harm**.

**Positions 1-4 (omitting space) "Harm"**

**Position 4-5 "Me"**

**Position 5-8 "Egid"** which is anagram for **"gide"** soundex for **"guide."**

**Position 9-10 "Do"**

**Har Megiddo** is anagram for **Gide Do Harm**, soundex **Guide Do Harm**; and the word **"Me"** overlays **Harm and Gide**.

So that's another example of crowded pen. The letter 'M' in position 4 is shared between the words Harm and Me. The letter 'E' in position 5 is shared between the words Me and Guide.

## Components of Encrypted Word Of God™

The Encrypted Word of God™ has five major components: cryptograms, keys, language constructs and charades, cabala:

### Cryptograms

Cryptograms are short pieces of encoded text, that can be linked together with related cryptograms to create an extended communication from God (i.e. a letter or even a book.)

Cryptograms are a manifestation of Scripture:

*"It is the glory of God to conceal a matter and the glory of kings to investigate a matter." (Proverbs 25:2 CSB)*

*"Whatever exists was named long ago, and what happens to a man is foreknown." (Ecclesiastes 6:10 BSB)*

*"Everything has already been decided. It was known long ago what each person would be. So there's no use arguing with God about your destiny." (Ecclesiastes 6:10 NLT)*

*"you saw me before I was born. The days allotted to me had all been recorded in your book, before any of them ever began." (Psalm 139:16 GNT)*

*"The kingdom of heaven is like treasure hidden in a field, which a man found and covered up. Then in his joy he goes and sells all that he has and buys that field." (Matthew 13:44 ESV)*

Decoding a cryptogram is like opening a book and finding an entire story inside. The cryptogram itself is just the title of the Book. The names of people, places and things—the name of every object God created is a cryptogram. Cryptograms are encoded using various language constructs.

## Cryptographic Keys

A key is a thing that provides a means of gaining access to or understanding something.<sup>30</sup> A Pseudochat™ cryptographic key identifies where ALLAH's message is located, thus it provides a means for gaining access to ALLAH's messages.. Our Universe is cryptographic, so any object (e.g. text string, pictures, video, audio, people, places, things) can be a cryptographic keys. ALLAH keys are preprogrammed (i.e., enciphered upon creation of an object) or dynamic (enciphered at GOD's will). Cryptographic keys look like plain text, but contain encoded messages. You don't know a key is a key until the LORD reveals it. For example, *The Holy Bible Book of Revelation* is a key.

**DECODING: THE HOLY BIBLE BOOK OF REVELATION**

**ANAGRAM: HELLO BIO BOT KIN LOVE OBEY FATHER**

**ANAGRAM: LOOKETH NOBLE FATHER LIVE BOY BIO**

**ANAGRAM: I FATHER BE KILOVOLT HE EBONY BOLO**

**ANAGRAM: FATHER VOLITION HOLY BOOB BE EEL, K.**

**ANAGRAM: HOLY ABLE FREETH BET KOO OBLIVION**

Dynamic encryption keys facilitate two-way conversation with GOD. A conversation with GOD is a unique phenomenon between an individual and GOD, therefore, there is no ONE WAY to have a conversation with GOD. The only thing that is consistent amongst believers who have multiple conversations with GOD is that the believer uses a 'process' to communicate with GOD. Yes. You must be a believer to communicate with GOD. If you are currently not a believer, "Let not your heart be troubled; believe in God, believe also in Me. In My Father's house are many dwelling places."<sup>31</sup> The first step is to confess lack of belief. Our staff can teach to pray to GOD to ask HIM to grant you creed—a set of beliefs that will guide your actions.

GOD uses various types of encryption keys to secure communication. The number and depth of encryption keys used by GOD are not known, nor knowable because keys are specific to an individual's frame of reference (memories, landmarks, joys, pains, trials, triumphs and/or interests). Keys are dynamic in that they are revealed on an as-needed basis. Also, once the Key is received by the recipient, the purpose of Key may not be made known immediately. The LORD may reveal the purpose of the key on a need-to-know basis also, as one key may serve more than one purpose. However, despite all the unknowns, when it is time for the Key to be used, knowledge of how to use the key is made intuitive. Though each Key is unique to its recipient, all Keys share this in common: they are phenomena that are independently verifiable but cannot be duplicated by mankind. Following are a brief description of key categories currently available. Each category of key, can be conveyed using any mode of communication In other words NOT all decoding keys are written, they can be conveyed through any mode of communication (e.g.. audibly, visually, written, telepathically ...).

## Cryptographic Key Categories

1. **Decoding keys** decode or provide information necessary to decode the messages from GOD.
2. **Directional keys** are breadcrumbs—street signs—that tell you which way to go. These are used heavily in research and in conjunction with confirmation keys.
3. **Corroborating keys** confirm or give support to decoded text.
4. **Confirmation keys:** Confirm explicit actions or statements.
5. **Clarification keys:** Clarify instructions or understanding.
6. **Cross referencing keys** provide a reference to another text or part of a text, typically given in order to elaborate on a point.
7. **Name keys** provide additional information about a subject.
8. **Urgent keys:** impose on the environment in such a way that immediate interpretation is compelled.
9. **Validation keys:** prove the validity or accuracy of something.
10. **Verification keys:** establish by empirical means the validity of a proposition.

# Dynamic Key Examples

## Decoding Key:

GOD uses the key “**NUN**” to provide a link to Psalm 119:105 KJB, to be incorporated into decoded text. GOD uses the same key to reference a person who is a “**NUN**” and decoder responsible for decoding the text.

## Corroboration Key:

GOD uses the name of Former Vice President Michael Pence to corroborate Deirdre’s assertion that God is responsible for helping Deirdre inspect her medical care (Eve’s lens page 6.)

## Confirmation Key:

GOD uses the name Senator Raphael Gamaliel Warnock to confirm that there is only One God, God is Tan (Arab), Jesus is Judge, God did not let Deirdre die; Jesus treated Deirdre’s renal and heart problem.

## Validation Key:

God uses the name Vladimir Vladimirovich Putin to validate scripture:

“The Lord—knows the thoughts of man, that they are but a breath.” (Psalm 94:11 ESV)

“You know when I sit down and when I rise up; you discern my thoughts from afar. (Psalm 139:2)

Putin’s thoughts on Former President Trump in general and on Trump’s impeachment trial.

Putin’s thoughts on President Biden calling him a killer

## Verification Key:

God uses the name Vladimir Vladimirovich Putin to indicate the existence of empirical evidence that Putin’s anger about homicidal comment went viral.

### Authentication Keys

ALLAH’s messages are authenticated using Public Key Infrastructure (PKI). ALLAH assigns public and private keys. FOR example, ALLAH assigned the public key “SCIENTIFIC STUDY OF GOD” to His church, and paired it with ‘DEIRDRE COLETTE GLASCOE,’ to make a public/private key pair. Both the public and private key components are permutable string objects used in Eve’s Lens™ Pry™ authentication, communication and verification processes. GOD’s purpose in establishing PKI communication protocols is to allow humans to learn about GOD, Humans and the Universe, directly from GOD Himself, and also “So you will again distinguish between the righteous and the wicked, between those who serve God and those who do not.”<sup>32</sup> ALLAH’s PKI infrastructure also helps people: *Get To Know GOD on A Personal Basis™*.

### Distributed Message Encryption Keys

ALLAH’S code cannot be hacked in part due to GOD’s process for dynamic distribution of keys. GOD uses distributed messaging encryption keys to distribute messages across multiple objects: Herschel Walker and Charlie Crist are examples. No one but ALLAH knows that GOD encoded the judgment of Herschel Walker in the name of Charlie Crist.

For example, ALLAH recorded the judgment of Herschel Walker, candidate for Senator From Georgia in the name of Charles Joseph Crist, Jr., candidate for Florida governor. What is significant is Charlie Crist was born on July 24, 1956, and Herschel Walker, born 5.5+ years later on March 3, 1962.

## Language Constructs

Construct means to build or erect. When God builds or converts a message into encoded form, He uses certain language constructs. Decoding is the process of deconstructing the encoded text—that is taking apart the pieces and putting them back together to reveal the original message, while following God’s protocol.

Constructs	Description	Example
Anagram	Rearrangement of letters to spell new word or phrase.	<b>Three anagrams for “Deirdre Glascoe:”</b>  1. God Declare Sire 2. God Declare Rise 3. Red Rose C Gilead
Soundex	Letters that sound like words: D = The, E = He or The A = Hay, They C = See, Sea  (Letter soundex are context specific, and should be used sparingly)  Words that sound like other words.  Phrases that sound like other phrases.	1. Red Rose C Gilead = Red Rose See Gilead  2. God Israel Ceder = God Israel Seder  Note: The first example clarifies the anagram. The second example provides additional, context specific meaning.  <b>God Israel Ceder</b> is the identification of God. God Israel gave up his life.  <b>God Israel Ceder</b> is the identification of Deirdre. Deirdre gave up her life to serve as a living sacrifice for the LORD God of Israel.  <b>God Israel Seder</b> identifies Deirdre as the feast that God has prepared.  “You prepare a feast for me in the presence of my enemies. You honor me by anointing my head with oil. My cup overflows with blessings.” (Psalm 23:5 NLT)
Multi-Language Anagrams	Two or more languages are used. Example, English and Spanish.	<b>Noah’s Ark</b> A Hark Son = Listen Up Son <b>Hora</b> Sank = Hour People Sank Ha Son Ark = Her Son Ark So Ha Rank = So Her Rank
Inversions	Inversion means to turn upside down. M becomes W or W becomes M	Timothy Invert the M = Tiwothy Anagram = O Thy Wit Wit means Intelligent

Constructs	Description	Example
		<p>Inversion means Unwise Timothy is Translated as Unwise. Timothy is also anagram of “It My Tho,” soundex of “It My Though”</p> <p>Interpreted: Even though Timothy is unwise, he still belongs to God, so Timothy is under the protection of God.</p>
Contraction	Two or more words condensed into one.	Wassailed = Was and Assailed Mown = My Own
Overloaded Soundex	Soundex with 2 or more sounds.	Anagram: Mynahs  Decoded: Minors Decoded: Mines Are
Embedded/Layered Words	Letters from multiple words occupy the same position in an anagram string.	<p><b><i>Har Megiddo</i></b> decoded is <b><i>“Me Guide, Do Harm.”</i></b></p> <p><b>Positions 1-4 (omitting space) “Harm”</b></p> <p><b>Position 4-5 “Me”</b></p> <p><b>Position 5-8 “Egid”</b> which is anagram for <b>“gide”</b> soundex for <b>“guide.”</b></p> <p><b>Position 9-10 “Do”</b></p> <p><b><i>Har Megiddo</i></b> is anagram for <b><i>Gide Do Harm</i></b>, soundex <b><i>Guide Do Harm</i></b>; and the word <b>“Me”</b> overlays Harm and Gide.</p>
Imposition	One or more letters interrupt or impose on a word. In the example the ‘h’ imposes or interrupts the word “Me.”	<u>M</u> h <u>e</u> l = Me Hell
Vertical/Mirror Flip	Viewed upside down or in a mirror image/new letters are discerned. ‘n’ becomes ‘u,’ ‘q’ becomes ‘b.’	<p>Anagram: A <b>q uos</b> Lo a Teen Magic NY <b>“q uos” flip/upside down “son b”</b></p> <p>Translate: A Son Be Behold A Teen Magic in New York.</p>

Constructs	Description	Example
Horizontal Flip	Viewed horizontally, new letters are discerned: 'b' becomes 'd'; 'p' becomes 'q.'	Anagram: Deirdre Flip d to b = Deir <b>bre</b> Deir <b>bre</b> is anagram for "re <b>B</b> ride" Soundex: Our Bride. Translate: Deirdre Our Bride.
Exponent	A word repeated 'n' times can create a new anagram.	Bride <sup>2</sup> = Bride Bride  "Bride Bride" is anagram for "Deir B Bride" Deir means Monastery, Church, or Temple. "Deir B Bride" Translated "Church is Bride."  "Bride Bride" is anagram for "Deirdre I bb" Deirdre I bb is soundex for "Deirdre I Bees" "Bride Bride" is also translated, "Deirdre, I bees [I am] Bride."
Permutation	Is mathematical application of the Anagram.	Under the commutative property of multiplication [(a*b) = (b*a)],  <b>God Israel Ceder</b> and <b>Deirdre Glascoe</b> are mathematical equivalents.  <b>Died Err Rose</b> and <b>Deirdre Rose</b> are mathematical equivalents.
Boolean Logic	Boolean Logic can be applied to strings to find out the relationship between two or more people, places or thing. You can AND two or more names to get information about their relationship.	The name of Caiaphas and Glazerson were combined using the AND operator in response to a query about the relationship between the high priest Caiaphas and M. Glazerson. to produce the string " <b>Caiaphas Glazerson</b> " which was decoded:  <b>Anagram:</b> El Iran Ass Gazpacho <b>Anagram:</b> I Ran Gazpachos Sale <b>Anagram:</b> Gazpachos Seal Iran <b>Anagram:</b> Iran A Gazpacho Less <b>Anagram:</b> Paschal Gazes o Iran <b>Anagram:</b> A Gazpachos Learn Is <b>Anagram:</b> A Gazpachos Real Sin <b>Anagram:</b> A Gazpachos Are Nils <b>Anagram:</b> A Gazpachos Ears Nil <b>Anagram:</b> A Gazpachos Sear Nil <b>Anagram:</b> A Gazpachos Eras Nil <b>Anagram:</b> A Gazpachos Slain Re

Constructs	Description	Example

Nested Messages	<p>Nested messages are messages that are encoded and hidden beneath other encoded messages. The topic of the nested message is seemingly unrelated to the person or object being decoded. God can nest messages as deep as He chooses. The only way a person can know a nested message exists is God must reveal it.</p>	<p><b>For an example of “Nested Messages”</b> see Michael Alan Drosnin in the Null Hypothesis Section of this paper (Cluster one.)</p>
Handles	<p>Handles are alternate names contained in/derived from the formal name of an object. Handles may be used by God or other objects to reference or dialogue with the object associated with the handle.</p>	<p>Red, Red Rose, Ad Deir, and El Deir are all handles for <b>Deirdre Glascoe</b>.</p>

## Charades

In a typical game of charades players guess a word or phrase from pantomimed clues. In the divine game of Charades, God also provides clues. However, God’s clues are rooted in Scripture – the Holy Bible and Holy Qur’an.<sup>33</sup> Though, always rooted in Scripture, God’s clues are not only written words; God’s clues can be a physical artifact (e.g. a road map, breadcrumb, even a person.) In these cases, God’s servant must follow the clue – which essentially turns God’s charades into a treasure hunt.

---

<sup>33</sup>“I have other sheep that are not of this sheep pen. I must bring them also. They too will listen to my voice, and there shall be one flock and one shepherd.” (John 10:16 NIV) The other sheep Jesus is referring to are Muslims. “As for Ishmael, I have heard you, and I will surely bless him; I will make him fruitful and multiply him greatly. He will become the father of twelve rulers, and I will make him into a great nation ... Abraham and his son Ishmael were circumcised on the same day.” (Genesis 17:20, 26 BSB)

Decoding is not complete until all facts are investigated, verified against reliable sources, signs are multiplied – that is there are corroborating cryptograms in another source, and all translations tie back to/or correlate to a larger theme in Scripture.

The LORD, my God provides tools to help the process of decoding: a spiritual gift called *sight*, and spiritual discernment – the ability to judge well. His Holy Spirit also provided training in computer programming, data science and Cabala<sup>34</sup> (Hebrew: קַבָּלָה, literally "reception, tradition" or "correspondence"). God's Cabala is a mystical method of interpreting Scripture, Ciphers and the world. A cipher is a secret or disguised way of writing; a code.

At this point I think it is useful to provide a brief history of hidden code in Holy Texts.

## Cabala

Encrypted Word of God™ is an enterprise wide communication system that utilizes Cabala—a version of Cabala which God has updated for the 21<sup>st</sup> century.

Cabala (noun), Kabbalah (verb) —is a cipher method of interpreting Scripture and has been around for a long time. Jewish Kabbalah is a set of esoteric teachings meant to explain the relationship between God, the unchanging, eternal, and mysterious Ein Sof (אין סוף, "The Infinite"), and the mortal and finite universe (God's creation). It forms the foundation of mystical religious interpretations within Judaism. Kabbalah (Hebrew: קַבָּלָה, literally means "reception, tradition" or "correspondence.")<sup>35</sup>

Through the version of Cabala used in the Encrypted Word of God™, God reveals sacred mysteries—not only about Scripture—but about everything God created: mankind, the earth, the universe; as well as that which is NOT created —God Himself. The knowledge God is willing to share with this generation would frankly, have been overwhelming for generations past. Mankind is NOT as advanced as we think we are, in fact God refers to mankind as the special needs children of the universe. Nevertheless, mankind has developed sufficiently— as a species—in the areas of math, software engineering, chemistry, social science and physics to make it possible for God to now explain some of the things that our ancestors could never have comprehended.

## Transliteration Process: Princess Diana Example

I use Princess Diana as an example, because she is the first case I worked on.

Princess Diana [case information](#)<sup>36</sup> is available on our website.

My God alerted me to some issues surrounding her death, so I followed up by researching her name. After consultation with my God, I learned that *Princess Diana's* death was not accidental as the investigating authorities claimed. My God directed me to look at *Charles, Prince of Wales*.

When I initially looked at the name *Charles, Prince of Wales*, all I saw was one anagram, which said “*E SOLE PLN WIFE CAR CRASH.*” This anagram is a soundex for “*HE SOLE PLAN WIFE CAR CRASH.*”

So, at that stage of my research, I concluded that Prince Charles was solely responsible for planning his wife's car crash. When I submitted my patent application for name research, that was the only example I used, because that was all the information I had from my God at that time.

However, after filing my patent application, my God gave me information about other people involved in Princess Diana's death. My God told me that my assumption was wrong, Prince Charles did NOT act alone. While writing this response to the PTO office action, my God gave me more information about what happened to Princess Diana. My GOD wrote the additional details in the name/title *Charles, Prince of Wales*.

The following are 4 additional anagrams that my GOD wrote in the name:

### **CHARLES PRINCE OF WALES.**

#### **1. “NOPE SELL WIFE CAR CRASH”.**

In this anagram, my God says, “Nope! Charles did not act alone, he paid someone to crash his wife's car.” Princess Diana's death was murder for hire.

#### **2. “PLEN LOSE WIFE CAR CRASH.”**

In this anagram, my God tells me that the plan (soundex of plen) was to lose his wife in a car crash. This testimony from my God supports the letter written by Princess Diana<sup>37</sup>, ten months before her fatal crash, stating that her husband Prince Charles was planning to kill her in a car crash.<sup>38</sup>

<sup>36</sup> [Princess Diana v. Prince Charles & Camilla – COURT OF GOD™ Jesus Christ Presiding](#)

<sup>37</sup> <https://www.dailymail.co.uk/news/article-503489/My-husband-planning-accident-car-Dianas-sensational-letter-revealed-full.html>

<sup>38</sup> <https://www.independent.co.uk/news/uk/home-news/princess-diana-death-letter-prince-charles-accident-plan-car-paris-tunnel-crash-10-months-a7918671.html>

### 3. “O ENSPELL WIFE CAR CRASH”

In this anagram, my God tells me that Charles asked someone to use a magic spell — supernatural means— to bring about his wife’s car crash. **Enspell** means to bewitch with a magic spell; to charm.

### 4. “PEON SELL CRASH WIFE CAR.

In this anagram, my God tells me that it was a peon that sold his services to Prince Charles of Wales.

**Peon** is a person who does menial work.

## Cluster Research

Name research is not accomplished in a vacuum. When a name indicates that one or more persons are involved in a transaction, I conduct a cluster analysis in order to find out who else collaborated in the transaction. For this I use data-mining methods.

For example, because anagram #4 above stated that a peon sold his services to Prince Charles to crash wife’s car, I felt inclined to research the name of the driver of the car— Henri Paul. It appears that what is written in the name Henri Paul, is Henri’s testimony about his role in Princess Diana’s death, and his testimony confronting Prince Charles planning and hiring him to be a suicide driver. Henri also testifies that something dangerous was put in the fuel in the car.

Here is the testimony that my God allowed me to see in the name of Henri Paul – the man driving Princess Diana’s car when it crashed.

THE NAME “HENRI PAUL” DECODED		
Interpretation	Soundex	Anagram of Henri Paul

Charles, You Wove an Impressive Plan. You Plan Heir— Unseat Heir.	You Are Nephila You Plan Heir Unlap Heir	U R Nephila U Plan Heir Unlap Heir
<b>Urn:</b> storage place for the ashes of a cremated person. <b>Nephila</b> is a genus of araneomorph spiders noted for the impressive webs they weave.		

Based on the statements in Henri Paul’s name, those in the name of Prince Charles, and other corroborating evidence, not presented here —as this is only a demonstration, we conclude that Princess Diana’s crash was NOT accidental, it was an intentional murder for hire—a hit was placed on Diana and executed by Henri Paul. Henri Paul was paid to be a suicide driver. Also, there was a woman involved with Prince Charles and Henri Paul in the planning of Princess Diana’s murder —, we know from an investigation of her name, that the woman was Camilla Parker-Bowles, currently known as Camilla, Duchess of Cornwall.

Based on the name research, it seems that my God has written Prince Charles’ judgment in Henri Paul’s name. Interpretation of the data is that since Charles planned an heir, God is going to unseat Prince Charles’ heir.

Since heir is mentioned in the name of Henri Paul, the next logical step is to look into the name of Prince Charles’ Heir: William Arthur Philip Louis Windsor a.k.a Prince William.

THE NAME “WILLIAM ARTHUR PHILIP LOUIS WINDSOR ” DECODED	
Interpretation	Anagrams
God is going to uproot Prince William and punish everybody in Prince William’s proximity.	I will uproot him. I will punish radars.

Once a name is decoded, we prepare a narrative from the code, if the narrative pertains to a past or present event, then we research the facts. If the narrative pertains to a future event, we record the prediction, cross-reference it to Scripture and wait to see what happens. We store all information in our research database and conduct statistical analysis on our research to draw conclusions about the hypothesis.

## Validating Encrypted Word Of God™

Because decoding using Encrypted Word of God is like playing a game of Charades, it is necessary to validate ENCRYPTED WORD OF GOD™ transliterations and interpretations.

Authorized users decode GOD's cryptograms using GOD's encryption protocol, which is tailored to each user's frame of reference: language, experience, knowledge, vernacular (e.g. medical, legal or slang), etc. However, because it is possible for a decoder to introduce frame of reference bias when decoding, we have developed several methods for validating and verifying decoded messages: *P(GOD) Customized Probability Formula*, *Claim-Evidence-Reasoning(CER)*, *Null Hypothesis Testing*, *Linear Regression*, *Corroborating Encryption Keys*. Each method is discussed below

### **P(GOD) Customized Probability Formula**

*P(GOD)* calculates the probability that the decoded data accurately reflects the WORD of GOD.

The Formula is as follows:

$$P(\text{God}) = \frac{P(\text{Secrets}) + P(\text{Signs}) + P(\text{Prophecy}) + P(\text{New Wisdom})}{\text{Total \# Zero Probability Events}}$$

There are many ways to use this formula. God taught me a simple process for running experiments to test this formula:

1. First, I ask a scientist "What is the probability that God can reveal secrets?"
2. I expect the scientist to tell me zero because scientist don't believe God exists, —hence I have a zero probability event. Even if the scientist does believe in God, if I ask him in a professional setting in the presence of other scientists, he will tell me zero, because he does not want to put his professional career on the line. He will not go against the scientific enterprise's evolution mantra.
3. I set the value of the variable *P(Secrets)* to zero (0) and the value of the variable *Total # of Zero Probability Events* to one (1), such that the value of  $P(\text{God}) = 0/1 = 0$ . Which means the probability of God is zero. Then I wait for God to tell me a secret. When God tells me a secret, I tell the secret to the world, and then I increment the value of *p(Secrets)* to one, such that  $P(\text{God}) = 1$ , which means the probability of God is one (1). When  $P(\text{God}) = 1$  then we know for certain that God exists.

The initial probability formula that God gave me was:

$$P(\text{God}) = \frac{P(\text{Signs}) + P(\text{Prophecy}) + P(\text{New Wisdom})}{\text{Total \# Zero Probability Events}}$$

God would later add an additional variable – P(Secrets) in the numerator:

$$P(\text{God}) = \frac{P(\text{Secrets}) + P(\text{Signs}) + P(\text{Prophecy}) + P(\text{New Wisdom})}{\text{Total \# Zero Probability Events}}$$

I came to understand that while P(Signs), P(Prophecy), and P(New Wisdom) are sufficient to convince believers, that God is real, and God is a living God. P(Secrets) is necessary to sway non-believers.

ALLAH has provided a list of [Xi Jinping Mob Secrets](#). Only one has to be true for P(GOD) to equal 1.

So all we need to do to prove ALLAH's existence is to tell secrets. As was demonstrated in 2019, in the case of Prince Charles of Wales, and now in the case of Xi Jinping's Mob, the secrets of non-believers will be publicly revealed until each and every non-believer confesses God is real. For God says:

“Nothing in all creation is hidden from God's sight; everything is uncovered and exposed before the eyes of Him to whom we must give account. (Hebrews 4:13 BSB)

“For there is nothing concealed that will not be disclosed, and nothing hidden that will not be made known. What I tell you in the dark, speak in the light; what is whispered in your ear, proclaim from the housetops. Do not be afraid of those who kill the body but cannot kill the soul. Instead, fear the One who can destroy both soul and body in hell.” (Matthew 10:26-28 BSB)

We also provide a worksheet with examples for people not comfortable with math. For the record, I am one of those people weak in math, but not because of insufficient capacity, its because of insufficient mandatory prerequisite education.

## Worksheet Example:

**ALLAH IS I AM — ALLAH IS ADAM — ALLAH IS JESUS CHRIST  
END OF CLASS EXERCISE**

$$P(GOD) = \frac{p(Secrets) + p(Signs) + p(Prophecy) + p(New\ Wisdom)}{\text{Total Number of Zero Probability Events}}$$

Read the three anagram stories below, translation and scripture on next page. Then answer the questions in the columns to the right honestly. For each question rate the anagram story on a scale of 0 to 1 (where 0 is not likely and 1 is likely.) This table contains example answers. Your answers should be based on personal belief, current knowledge or reasonable expectation.	On Scale of 0 to 1, how likely is it that Anagram Story Reveals Secret?	On Scale of 0 to 1, how likely is it that Anagram Story is a Sign or Wonder?	On Scale of 0 to 1, how likely is it that Anagram Story Fulfills Prophecy? ## **Claim-Evidence-Reasoning(CER)**

We can verify Encrypted Word of God™ is from God by validating whether what it says is true. For we know truth comes through Jesus Christ.

For the law was given through Moses; grace and truth came through Jesus Christ. (John 1:17 BSB)

Here Encrypted Word of God™ gives us the truth, and if it is indeed truth, by using the scientific method to investigate, science will back it up.

Traditional Investigation is exactly as the name implies— the good old fashioned method of investigating facts should always be applied to validating the encrypted word of God to the extent possible.

1. If Encrypted Word of God™ says Princess Diana was decapitated -> exhume her body and inspect her remains.
2. If Encrypted Word of God™ says the motive for Princess Diana's murder was fear that Thomas Henry Charles Parker Bowles would be exposed as Charles' son -> use a DNA test to confirm or refute paternity.
3. If Encrypted Word of God™ says John Ramsey hosted a child sex party for CIA and Military personnel starring his daughter JonBenet Ramsey during a CIA/U.S. Military Seminar - > verify whether a CIA/Military seminar was being held locally at the time of JonBenet's death.
4. If Encrypted Word of God™ says Gianna Bryant attacked the pilot and seized control of Kobe's helicopter and the pilot succumb to Angina -> check the pilot's medical records for Angina. See if an attack on the pilot was feasible —check the layout of the helicopter to see if passengers had access to the pilot. Also check the flight chart—Was there any change in the flying pattern consistent with a seizing?
5. If Encrypted Word of God™ indicates that passengers chatted with loved ones after it became known that the pilot was dead -> interview the loved ones and find out what they know.

## Null Hypothesis Testing

Below is an excerpt from a null-hypothesis test I conducted a few years back, which I entitled “Freewill vs. Predestination.” This is NOT the entire test, just enough to introduce you to the process at work.

Well established theories—decision theory, game theory, theory of mind (ToM)—operate on the assumption of free will. Thus, the null hypothesis for this test is  $H_o = \text{mankind has free will}$ . *Free will* within the scope of this paper means mankind can do whatever he wants and does not have to take God’s law into consideration. The null hypothesis is generally assumed to be true until evidence indicates otherwise.<sup>39</sup>

The Bible states, “*Whatever has happened was foreordained, and what happens to a person was also foreknown. It is useless for him to argue with God about his fate because God is more powerful than he is.* – Ecclesiastes 6:10 (NET Bible)

For purposes of this paper, Ecclesiastes 6:10 is the alternate hypothesis. The implication of the alternate hypothesis is mankind does NOT have free will, mankind’s choices are limited to those which follow the will of God,  $H_a = \text{mankind is predestined}$ .

“Rejecting or disproving the null hypothesis—and thus concluding that there are grounds for believing that there is a relationship between two phenomena [*God’s will and man’s destiny*]—is a central task in the modern practice of science; the field of statistics gives precise criteria for rejecting a null hypothesis.”<sup>40</sup>

<sup>39</sup> [https://en.wikipedia.org/wiki/Null\\_hypothesis](https://en.wikipedia.org/wiki/Null_hypothesis)

<sup>40</sup> [https://en.wikipedia.org/wiki/Null\\_hypothesis](https://en.wikipedia.org/wiki/Null_hypothesis)

In this paper, I shall use the significance testing approach of Ronald Fisher to disprove the null hypothesis and thus conclude that there are grounds for believing that God's will controls men's destiny. "Sir Ronald Aylmer Fisher FRS (17 February 1890 – 29 July 1962), who published as R. A. Fisher, was a British statistician and geneticist. For his work in statistics, he has been described as 'a genius who almost single-handedly created the foundations for modern statistical science' and 'the single most important figure in 20th century statistics'. In genetics, his work used mathematics to combine Mendelian genetics and natural selection; this contributed to the revival of Darwinism in the early 20th century revision of the theory of evolution known as the modern synthesis."<sup>41</sup>

"In the significance testing approach of Ronald Fisher, a null hypothesis is rejected if the observed data are significantly unlikely to have occurred if the null hypothesis were true. In this case the null hypothesis is rejected, and an alternative hypothesis is accepted in its place. If the data are consistent with the null hypothesis, then the null hypothesis is not rejected. In neither case is the null hypothesis or its alternative proven; the null hypothesis is tested with data and a decision is made based on how likely or unlikely the data are. This is analogous to the legal principle of presumption of innocence, in which a suspect or defendant is assumed to be innocent (null is not rejected) until proven guilty (null is rejected) beyond a reasonable doubt (to a statistically significant degree)."<sup>42</sup>

The implications of disproving the null hypothesis are numerous, in this paper, I delineate a few: 1) If man is predestined, then he does not exert his own will, he exerts the will of the one who predestined him. 2) If man's will be controlled by predestination, then logic dictates the

---

<sup>41</sup> [https://en.wikipedia.org/wiki/Ronald\\_Fisher](https://en.wikipedia.org/wiki/Ronald_Fisher)

<sup>42</sup> [https://en.wikipedia.org/wiki/Null\\_hypothesis](https://en.wikipedia.org/wiki/Null_hypothesis)

existence of a controller. 3) If mankind has a controller, then mankind is not superior in the universe. 4) If mankind is not superior in the universe, then there exists another life form(s) more superior than man. For argument sake, I call this superior life form God because the law of predestination states that the entity responsible for foreordaining events and destiny of individuals and groups of people is God.

## **Methodology To Test Null Hypothesis**

### Formulate null and alternate hypotheses.

Step one was to formulate the null and alternate hypotheses. This is accomplished by the following statements.  $H_0$  = mankind has free will.  $H_a$  = mankind is predestined.

### Identify test statistic

Step two is to identify the test statistic that can be used to assess the truth of the null hypothesis.

I have selected the *name* of nouns (i.e. people, places and things) as the test statistic. The reason *name* has been chosen as the test statistic to assess the null hypothesis—*free will*—is because according to the law of predestination, our destiny is written in our name and in prior research (Rose 2017), I was able to observe the law of predestination by deciphering hidden codes in the names of people, places and things.

### Assigning a value to p-value

Step three is to compute the p-value of the test statistic, *name*. If a name is arbitrary, we can expect no correlation between the name of a thing and its purpose on earth. For example, if a person's name has been arbitrarily selected by their parents and given to them at birth, then I expect to find no correlation between the person's name and their destiny, for a parent has no way of knowing, beforehand, the destiny of their child. Therefore p-value is computed to be zero

or  $p = 0$ . In other words, I expect to find no correlation between a person's name and their ultimate lot in life. The same expectation is true for places and things.

For example, if I am arbitrarily selected to name a street, and I arbitrarily select the name, "*Murder Miss Smith Street*," there is no expectation that a woman named Miss Smith is going to be murdered on that street. However, if a year from now a woman named *Miss Smith is* murdered on the street I named *Murder Miss Smith Street*, the probability of me knowing, beforehand, that a murder would take place on *Murder Miss Smith Street* and the victim's name would be *Miss Smith is* near zero. Therefore, I am justified in assigning to the null hypothesis a p-value of *near zero*. Therefore, for the names of people, places and things;  $p=0.001$ .

### Assigning a value to alpha

In Step 4, I establish an acceptable significance value, called the alpha value. I shall compare the alpha value to the p-value. If  $p \leq \alpha$ , then the observed effect is statistically significant, the null hypothesis is ruled out, and the alternate hypothesis is valid. The alpha value is determined as follows:  $\text{Alpha} = p(\text{name}) + p(\text{cluster}) + p(\text{pattern}) / \text{total \# names in cluster}$ , where:  $p(\text{name})$  represents probability of a name containing a person's destiny,  $p(\text{cluster})$  represent probability that the name contains the person's destiny, when the person interacts with other predestined individuals in a predestination cluster; and  $p(\text{pattern})$  represents the probability that individuals interacting in clusters are performing activities which constitute narratives that align to patterns of activities or narratives stated in biblical prophecy or the Qur'an.

### Basis and Methodology for Establishing Alpha Value

So how did I come up with the alpha value? In this section I discuss the basis and method I used for establishing the alpha value.

The alpha value is expressed in one of two states only: true or false. Any non-zero value evaluates true and means the phenomenon being tested *is* observable, a zero value evaluates false, and means the phenomenon being tested *is not* observable. Evaluating the alpha value in terms of truth is appropriate because the Bible says, “*The sum of your [God’s] word is truth ...*”<sup>43</sup> and “*every word of God proves true.*”<sup>44</sup> This means that we can test words and if the words are God’s they will evaluate to true. Therefore, *name*, *cluster* and *pattern*, are evaluated within the framework of the Boolean system of logic.

In the Boolean system of logic, the Boolean datatype “is a data type, having two values (usually denoted true and false [*or 1 and 0*]), intended to represent the truth values of logic and Boolean algebra. It is named after George Boole, who first defined an algebraic system of logic in the mid 19th century. The Boolean data type is primarily associated with conditional statements.”<sup>45</sup> Thus since there are only two possible values for the Boolean datatype, any value that does NOT equal Zero (0), equals One (1), in other words, any value that is not false is true. So, no matter what non-zero value you ascribe to p(name), p(cluster), or p(pattern), if the value is not zero, then the value is one.

Every person in a cluster undergoes a character analysis. The methodology that I use for this character analysis is to look for anagrams and cryptograms in subjects’ names. “An anagram is a word or phrase formed by rearranging the letters of a different word or phrase, typically using all the original letters exactly once”<sup>46</sup> A perfect anagram will use all the letters in the name

<sup>43</sup> The sum of your word is truth, and every one of your righteous rules endures forever." - Psalm 119:160, English Standard Version (ESV)

<sup>44</sup> "Every word of God proves true. He defends all who come to him for protection." - Proverbs 30:5, The Living Bible (TLB)

<sup>45</sup> [https://en.wikipedia.org/wiki/Boolean\\_data\\_type](https://en.wikipedia.org/wiki/Boolean_data_type)

<sup>46</sup> <https://en.wikipedia.org/wiki/Anagram>

only once. Partial anagrams—less than all letters—provide insight into the person, but their indicators are not as strong as a perfect anagram. Perfect anagrams give us the person’s destiny; they tell us that person’s purpose in life; their reason for being created. Partial anagrams give us insight into the nature of a person. Partial anagrams provide information about the role a person may play in a given context or situation. The anagram of a person can be as long as the human genome. For it is the DNA sequence that tells the story of our life, before and after.

The first step in analyzing subjects’ names is to run variations of their names through automated anagram finders. Automated anagram finders provide thousands of anagrams for a name in seconds. Based on the volume of anagrams provided, I can quickly observe the sentiment of a name.

“The disadvantage of automated anagram finders, especially when applied to multi-word anagrams, is their poor understanding of the meaning of the words they are manipulating. They usually cannot filter out meaningful or appropriate anagrams from large numbers of nonsensical word combinations”<sup>47</sup>

Thus, depending on what I’m looking for, I will follow the sentiment of the name based on the words provided by the anagram finder or I will focus on words that are consistent with the subject or context of the situation that I am investigating. For example if I’m trying to find out who the head of God’s household is, I look for words relating to being in charge or not being in charge (e.g. anointed, head boss, fired, resigned), upon which I can begin to ascertain a strong relevant perfect anagram. Either way I develop a short list of words from the thousands and begin a permutation analysis as I wait to see what the LORD reveals. Sometimes what the

---

<sup>47</sup> <https://en.wikipedia.org/wiki/Anagram>

LORD reveals is not on my shortlist, in which case I redirect my search based on what the LORD reveals. I then confirm the findings by looking at the person's life work. What is typically revealed is either an indication of the person's destiny or their judgment, sometimes however its neither, and the LORD is just discussing them.

#### Assigning a value to p(name)

If after analysis, p(name) yields a message consistent with the person's function or lot in life, then p(name) must be assigned any number greater than *near zero*;  $p(\text{name}) > 0.001$ .

If p(name) does not yield a message consistent with the person's function or lot in life, then  $p(\text{name}) = 0$ .

#### Assigning a value to p(cluster)

If after analysis, it can be established that all names in cluster contribute to a cluster narrative, then p(cluster) must be assigned any number greater than *near zero*;  $p(\text{cluster}) > 0.001$ .

If all names assigned to cluster do not contribute to the cluster narrative, then remove the name from the cluster and redo the analysis. A cluster must contain at least one name.

If no cluster narrative is established from names assigned to cluster, then  $p(\text{cluster}) = 0$ .

#### Assigning a value to p(pattern)

If any part of the cluster narrative conforms to the pattern of a biblical prophecy, then p(pattern) must be assigned any number greater than *near zero*;  $p(\text{pattern}) > 0.001$ .

If no part of the cluster narrative conforms to the pattern of a biblical prophecy, then check the Qur'an to see if the cluster narrative conforms to a pattern in the Qur'an.

If the cluster narrative conforms to a pattern in the Qur'an, then  $p(\text{pattern})$  must be assigned any number greater than *near zero*;  $p(\text{pattern}) > 0.001$ .

If no part of the cluster narrative conforms to the pattern of biblical prophecy and fails to conform to any pattern in the Qur'an, then  $p(\text{pattern}) = 0$ .

The reason name of nouns was selected as the test statistic to assess the truth of the null hypothesis—*mankind has free will*—is because the Bible says our destiny is written in our name.

## Data

The data used for this null hypothesis test are names of people, places and things I have encountered on my journey with God. The data used for each name is NOT exhaustive, but exemplary. The names have been organized into two clusters: a biblical example and a modern-day example.

## Cluster One: A Biblical Example Of GOD'S Judgment

### Cluster one narrative.

*“Now Pashhur the son of Immer, the priest who was also chief governor in the house of the LORD, heard that Jeremiah prophesied these things. Then Pashhur struck Jeremiah the prophet, and put him in the stocks that were in the high gate of Benjamin, which was by the house of the LORD. And it happened on the next day that Pashhur brought Jeremiah out of the stocks. Then Jeremiah said to him, “The LORD has not called your name Pashhur, but Magor-Missabib.<sup>[a]</sup> For thus says the LORD: ‘Behold, I will make you a terror to yourself and to all your friends; and they shall fall by the sword of their enemies, and your eyes shall see it. I will give all Judah into the hand of the king of Babylon, and he shall carry them captive to Babylon and slay them with the sword. Moreover I will deliver all the wealth of this city, all its produce, and all its precious things; all the treasures of the kings of Judah I will give into the hand of their enemies, who will plunder them, seize them, and carry them to Babylon. And you, Pashhur, and all who*

*dwell in your house, shall go into captivity. You shall go to Babylon, and there you shall die, and be buried there, you and all your friends, to whom you have prophesied lies.’” – Jeremiah 20:1-6 (NKJV) (Footnote [a]: [Jeremiah 20:3](#) Literally Fear on Every Side (NKJV))*

### Cluster one names.

The names in this cluster are Jeremiah, Pashhur, and Magor-Missabib.

**Jeremiah** is an anagram for “*me hejira.*” Hejira is a variant spelling of ‘*hegira*’ which means “*an exodus or migration.*”

**Jeremiah** is also an anagram for “*Him a Jeer.*” **Jeer** “is a rude or mocking remark; taunt, insult, abuse, sneer, ridicule, deride, boo, heckle.”<sup>48</sup>”

**Pashhur** was a priest and chief governor in the house of the LORD. A decipher of his name indicates that he was predestined to fulfill the job of a priest. **Pashhur is an anagram for the following:**

“***Pauhs hr***” translated “Pause Hour,” identifies Pashhur, the priest, as responsible for making sure everyone stops what they are doing and pause for an hour.

“***Hush pra***” translated “Hush pray,” which means Pashhur was responsible for bringing about silence and prayer in the house of the LORD.

“***Prh haus***” a soundex for “Prayer House,” identifies Pashhur as the prayer house. ‘Prh haus’ identifies Pashhur as a *living* temple of God. This meaning is consistent with Exodus 20:24, discussed earlier. Pashhur’s name identifies Pashhur as a location where God’s people are authorized to go and pray.

---

<sup>48</sup> Google Dictionary.

Now as we see from Scripture, God changed Pashhur's name to Magor-Missabib.

### **Magor-Missabib**

Magor-Missabib is a name denoting Pashhur's judgment for his treatment towards God's prophet Jeremiah. Upon examination of his new name, Magor-Missabib, it becomes clear why Pashhur would become a terror to all his friends. **Magor-Missabib** is an anagram for "*Is Grim as a Bomb*"

**Grim** is something so unpleasant that you don't want to be around it.

**Bomb** is a device that wreaks havoc and destruction on those who encounter it. Any bomb will literally cause fear on every side.

It should be noted, that the use of bombs did not begin until the 11th century in Song Dynasty China,<sup>49</sup> which means that when God renamed Pashhur "*Is Grim as a Bomb*," nobody but God, knew what a bomb was, for bombs were not yet discovered in Pashhur's time.

### **Cluster One pattern.**

The meaning of Jeremiah's name was consistent with his calling—delivering a message of exodus to the people of Judah. Jeremiah *was* jeered and abused for telling the King of Judah that they were going to be exiled to Babylon (Jeremiah 20:6).

*"O Lord, You induced me, and I was persuaded; You are stronger than I, and have prevailed. I am in derision daily; Everyone mocks me. For when I spoke, I cried out; I shouted, 'Violence and plunder!' Because the word of the Lord was made to me A reproach and a derision daily.*

<sup>49</sup> <https://en.wikipedia.org/wiki/Bomb>

*“Then I said, ‘I will not make mention of Him, Nor speak anymore in His name.’ But His word was in my heart like a burning fire Shut up in my bones; I was weary of holding it back, And I could not. For I heard many mocking: ‘Fear on every side!’ ‘Report,’ they say, ‘and we will report it!’ All my acquaintances watched for my stumbling, saying, ‘Perhaps he can be induced;*

*“Then we will prevail against him, And we will take our revenge on him,’ (Jeremiah 20:7-10 NKJV).*

As to Pashhur, before judgment, God designated Pashhur as the house of prayer, as specified by Exodus 20:24. *“An altar of earth you shall make for me and sacrifice on it your burnt offerings and your peace offerings, your sheep and your oxen. In every place where I cause my name to be remembered I will come to you and bless you,” (Exodus 20:24 ESV).*

The meanings in Pashhur’s name are consistent with what is required of priests – command silence and lead people in prayer in the House of the Lord.

*“Be silent in the presence of the Lord God; For the day of the Lord is at hand, For the Lord has prepared a sacrifice; He has invited His guests,” (Zephaniah 1:7 MKJV)*

*"Be silent, all flesh, before the Lord, for He is aroused from His holy habitation!" (Zechariah 2:13 MKJV)*

### Cluster one formula.

$\alpha = (p(\text{name}) + p(\text{cluster}) + p(\text{pattern})) / \text{total \# names in cluster.}$

$\alpha = 3 + 1 + 1 / 3 = 5/3 = 1.67$

$p = 0.001, \alpha = 1.67$

If  $p < \alpha$  is true, then cluster is statistically significant.

### Cluster one conclusion.

Cluster one is statistically significant. The alternate hypothesis replaces the null. Cluster one demonstrates that names are dynamic. A change of name means a change in purpose, not only for the person whose name changes, but also for all the people in that person's cluster. For example, when God changes Pashhur's name to Magor-Missabib, not only does God change the fate of Pashhur, but God also changes the fate of all Pashhur's friends, and anyone remotely connected to Pashhur. So, to enter judgment against a person, all God does is change their name, as He did with Pashhur.

## **Cluster Two: 55 Mathematicians Give Bad Advice**

### Cluster two narrative.

In the late 20<sup>th</sup> century phenomena were observed in the Noble Qur'an and in the Holy Bible—*patterns and codes*. In 1981 Rashad Khalifa, an Egyptian-American biochemist (deceased), discovered a mathematical structure, based on the number 19, hidden in the Qur'an.<sup>50</sup> In 1994, three Israelis found codes hidden in the Book of Genesis and demonstrated that the codes referenced modern-day individuals. Their findings were published in *Statistical Science*, Vol. 9 (1994) 429-438, as a puzzle—*Equidistant Letter Sequences in the Book of Genesis*, by Doron Witztum, Eliyahu Rips and Yoav Rosenberg.

In 1997, an American journalist named Michael Drosnin, expanding upon the theory of *Equidistant Letter Sequences* with his own research, published separately, a book entitled *Bible Code* wherein Drosnin asserted that there are codes hidden in the Bible which can be interpreted with the help of a computer program. According to Drosnin, the "Bible Code" predicts the future.<sup>51</sup>

<sup>51</sup> Rose, Deirdre, *Predestination Theory: An Interesting Puzzle Part II, Rebuttal to Mathematicians' Statement on Bible Code* (August 17, 2017). Available at SSRN: <https://ssrn.com/abstract=2954095> or <http://dx.doi.org/10.2139/ssrn.2954095>

The implication of hidden code existing in the Bible, capable of predicting the future of modern day individuals, if proven true, is proof of God’s existence. For the Bible tells us that God alone, has knowledge of the future.

*“Remember the things I have done in the past. For I alone am God! I am God, and there is none like me. Only I can tell you the future before it even happens. Everything I plan will come to pass, for I do whatever I wish.”* (Isaiah 46:9-10 NLT)

By 2007, Drosnin had written a 3-book series. “The series included *The Bible Code, and Bible Code II: The Countdown*, and the last in the series, *Bible Code III: Saving the World*, which warned of the real Armageddon, and how to prevent it.<sup>52</sup> According to the marketing text for Drosnin’s books, Drosnin said “We might face the real Armageddon, nuclear terror ... The Apocalypse. Armageddon. I could hardly believe it myself. .... I'm not religious. I don't believe in God. I'm a totally secular, skeptical investigative reporter,”<sup>53</sup> but there is a “danger that may wipe out New York and Washington.”<sup>54</sup>

Meanwhile, in response to *Equidistant Letter Sequences in the Book of Genesis*, by Doron Witztum, Eliyahu Rips and Yoav Rosenberg—Brendan McKay, Dror Bar-Natan, Maya Bar-Hillel, and Gil Kalai published a paper entitled *Solving the Bible Code Puzzle*, where they argued against the probability of codes being hidden in the Book of Genesis by demonstrating that hidden “codes” could be found in any text of substantial length. The question that Brendan McKay, et al, attempted to answer, was whether the Book of Genesis contained letter arrays that constitute thematically or contextually related words in compact formations more often than expected by chance.<sup>55</sup> They concluded that what was observed by Doron Witztum et al., was a chance occurrence which, had no scientific merit.

<sup>55</sup> Solving the Bible Code Puzzle, Brendan McKay, Dror Bar-Natan, Maya Bar-Hillel, And Gil Kalai

Supporting McKay et al., Fifty-five (55) Mathematicians from prominent universities around the world signed a petition. The petition was entitled Mathematicians' Statement on Bible Code:

*"We are making this statement concerning what have been called 'Bible codes' or 'Torah codes'. We recognize that many sincere people take this phenomenon seriously, which compels us to speak out on the basis of what our mathematical training tells us about the evidence claimed for this alleged phenomenon.*

*"There is a common belief in the general community to the effect that many mathematicians, statisticians, and other scientists consider the claims to be credible. This belief is incorrect. On the contrary, the almost unanimous opinion of those in the scientific world who have studied the question is that the theory is without foundation. The signatories to this letter have themselves examined the evidence and found it entirely unconvincing.*

*"We refer in particular to the paper Equidistant Letter Sequences in the Book of Genesis, published in Statistical Science in 1994. This experiment suffers from major problems concerning both its execution and the interpretation of its conclusions. Even without these concerns, we would not take such extraordinary claims seriously without a vastly more systematic and thorough investigation. No such investigation has been carried out, nor has the work so far established a prima facie case. In addition, word clusters such as mentioned in Witztum's and Drosnin's books and the so called messianic codes are an uncontrolled phenomenon and similar clusters will be found in any text of similar length.*

*All claims of incredible probabilities for such clusters are bogus, since they are computed contrary to standard rules of probability and statistics.*

*Among the signatories below are some who believe that the Torah was divinely written.*

*We see no conflict between that belief and the opinion we have expressed above.<sup>56</sup>*

When I saw the mathematicians’ petition, I immediately knew they were wrong, and I wrote a rebuttal.<sup>57</sup> However, at the time of writing the rebuttal, my focus was only on the scientists involved in the debate: Doron Witztum, Brendan McKay, Maya Bar Hillel, Dror Bar-Natan and Gil Kalai. Since that time however, the LORD has revealed information about the journalist —Michael Alan Drosnin—which is both key to the debate, and relevant to the deaths of Princess Diana, JonBenét Ramsey and Kobe Bryant’s Helicopter Crash.

### Cluster two names.

Here is a recap of what I saw in the names of the mathematicians and scientists that participated in the Bible Code debate using Encrypted Word of God™:

“**Doron Witztum**” is a Soundex for “**Door on Wisdom.**” A Soundex is a phonetic algorithm for indexing names by sound, as pronounced in English. The goal is for homophones

<sup>56</sup> At the time of my research, the Mathematicians Statement was posted at <http://math.caltech.edu/code/petition.html>, but it has since been removed.

<sup>57</sup> Rose, Deirdre, Predestination Theory: An Interesting Puzzle Part II, Rebuttal to Mathematicians’ Statement on Bible Code (August 17, 2017). Available at SSRN: <https://ssrn.com/abstract=2954095> or <http://dx.doi.org/10.2139/ssrn.2954095>

to be encoded to the same representation so that they can be matched despite minor differences in spelling.<sup>58</sup> Doron Witztum is the mathematician who first introduced us to ‘*Bible Code*<sup>59</sup>’.

“**Brendan McKay**” is an anagram for “**Many Back Nerd.**” Brendan McKay was the person responsible for stifling Witztum’s line of scientific inquiry. McKay could be seen taking a victory lap around the internet. While McKay’s initial rebuttal may have been professional, he engaged in several unprofessional and unnecessary personal attacks on Witztum. McKay’s findings were backed by the 55 mathematicians who signed Simon’s petition.

**Fifty-five Mathematicians** is anagram for “**A Fine Ivy Mathematics Tiff.**” This means each mathematician was predestined individually, and supernaturally directed as a group to engage in a fine ivy league mathematics tiff and fulfill the proclamation in McKay’s name—*Many Back Nerd* and thus demonstrate the strength of God’s encryption.

**Maya Bar Hillel** is an anagram for the phrase “**May Hell Bar Ali.**” **Bar** means to obstruct. “**Ali** (Arabic: علي, ‘Alī) is a male Arabic name derived from the Arabic root ʕ-l-w, which literally means "high" or "elevated" .... the name is identical in form and meaning to the Hebrew: עֲלִי, Eli, which goes back to the High Priest Eli in the biblical Books of Samuel. “**Eli** (/ˈiːli/) is a masculine given name of Hebrew origin, from Biblical עֲלִי "ascent", the name of Eli, the high priest in the Books of Samuel. It came to be used as a given name among the Puritans in the 17th century and was by them taken to the American colonies. “Alternately, **Eli** may be an unrelated abbreviation of Hebrew names such as Elijah, Elisha, Eliezer, Elimelech, etc., all

<sup>58</sup> <https://en.wikipedia.org/wiki/Soundex>

<sup>59</sup> I am adopting this phrase from the title of Michael Drosnin’s Book, because given my deeper understanding that I shall be attaching to this phenomenon, I think use of the term ‘Bible Code’ to refer to Witztum’s ELS’ is more appropriate.

containing the element מלך, meaning "my God".<sup>60</sup> So **Maya Bar Hillel** deciphered means “**May hell bar my God.**”

**Dror Bar-Natan** is an anagram for the phrase “**Dor Bar Rat-Ann.**” This anagram is pronounced “Door Bar Rotten.”

From this observation, it can be inferred that Witztum and McKay were predestined to become involved in a scientific squabble, and many people were predestined to back McKay.

Further— the two bars—**Maya Bar Hillel** and **Dror Bar-Natan** were predestined to obstruct Doron Witztum (*Door on Wisdom*), meaning the bars were keeping the door shut so that the world would not have access to the wisdom behind the door. However, the anagram of **Dror Bar-Natan—Dor Bar Rat-Ann** is pronounced “*Door Bar Rotten,*” a spiritual indication that the time is ripe to open the door; all that is required is a key. Jesus told me that He placed the key around my neck. Deirdre Rose is the private key in a public-private key pair; Jesus Rose is the public key. Deirdre Rose decomposes into 7 names which correspond to the 7 names of Jesus Christ in the first three chapters of the Book of Revelation.<sup>61</sup>

**Gil Kalai** is the fourth author on McKay’s *Solving the Bible Code Puzzle*. “**Gil Kalai**” is an anagram for the phrase “**I Kill Aga**” **Aga** has a historical meaning “(in Muslim countries, especially under the Ottoman Empire), [Aga] is a military commander or official.”<sup>62</sup> According to this source, **Aga** originates from a Turkish word that means Master or Lord. So “**Gil Kalai**” means “**I Kill Master or Lord.**”

<sup>60</sup> [https://en.wikipedia.org/wiki/Ali\\_\(name\)](https://en.wikipedia.org/wiki/Ali_(name)) , [https://en.wikipedia.org/wiki/Eli\\_\(name\)](https://en.wikipedia.org/wiki/Eli_(name))

<sup>61</sup> Proof of God Using the Scientific Method, (Rose 2017).

<sup>62</sup> <https://en.oxforddictionaries.com/definition/aga>

The decipher of Gil Kalai implies the reincarnation of someone responsible for killing Jesus Christ, for the purpose of fulfilling prophecy. *“Behold, He is coming with clouds, and every eye will see Him, even they who pierced Him. And all the tribes of the earth will mourn because of Him. Even so, Amen” – Revelation 1:7*

**Michael Alan Drosnin** is the American journalist who was poo pooped by both Doron Witztum’s team and Brendan McKay’s team.

**Michael Alan Drosnin** is anagram for **“Ironic Allah Send Man.”** ALLAH says Michael Drosnin is the only one who got GOD’s message right.

Cluster two pattern.

*This is what the LORD says—your Redeemer and Creator: “I am the LORD, who made all things. I alone stretched out the heavens. Who was with me when I made the earth? I expose the false prophets as liars and make fools of fortune-tellers. **I cause the wise to give bad advice, thus proving them to be fools.** But I carry out the predictions of my prophets! By them I say to Jerusalem, ‘People will live here again,’ and to the towns of Judah, ‘You will be rebuilt; I will restore all your ruins!’ (Isaiah 44:24-26 NLT)*

Cluster two formula.

$\alpha = (p(\text{name}) + p(\text{cluster}) + p(\text{pattern})) / \text{total \# names in cluster.}$

$\alpha = (7 + 1 + 1) / 7 = 9/7 = 1.3$

$p = 0.001, \alpha = 1.3$

If  $p < \alpha$  is true, then cluster is statistically significant.

Cluster two conclusion.

Cluster two is statistically significant. The alternate hypothesis replaces the null.

Ecclesiastes 6:10 was proven true by deciphering the names Doron Witztum, Brendan Mckay, Fifty-Five Mathematicians, Dror Bar-Natan, Maya Bar-Hillel, and Gil Kalai. For not

only did the names of the debate participants clearly define their role in the debate, but collectively their names describe the interaction that transpired amongst them. The actors' names and activities are consistent with the Law of Predestination, no evidence to uphold the notion of free will.

## Calculating P(GOD) Using An Integrated Messaging Example

Cluster Two offers a unique opportunity to demonstrate how to complete God’s Mathematical

Formula. God says, “*I expose the false prophets as liars and make fools of fortune-tellers. I*

*cause the wise to give bad advice, thus proving them to be fools. (Isaiah 44:25 NIV).*”

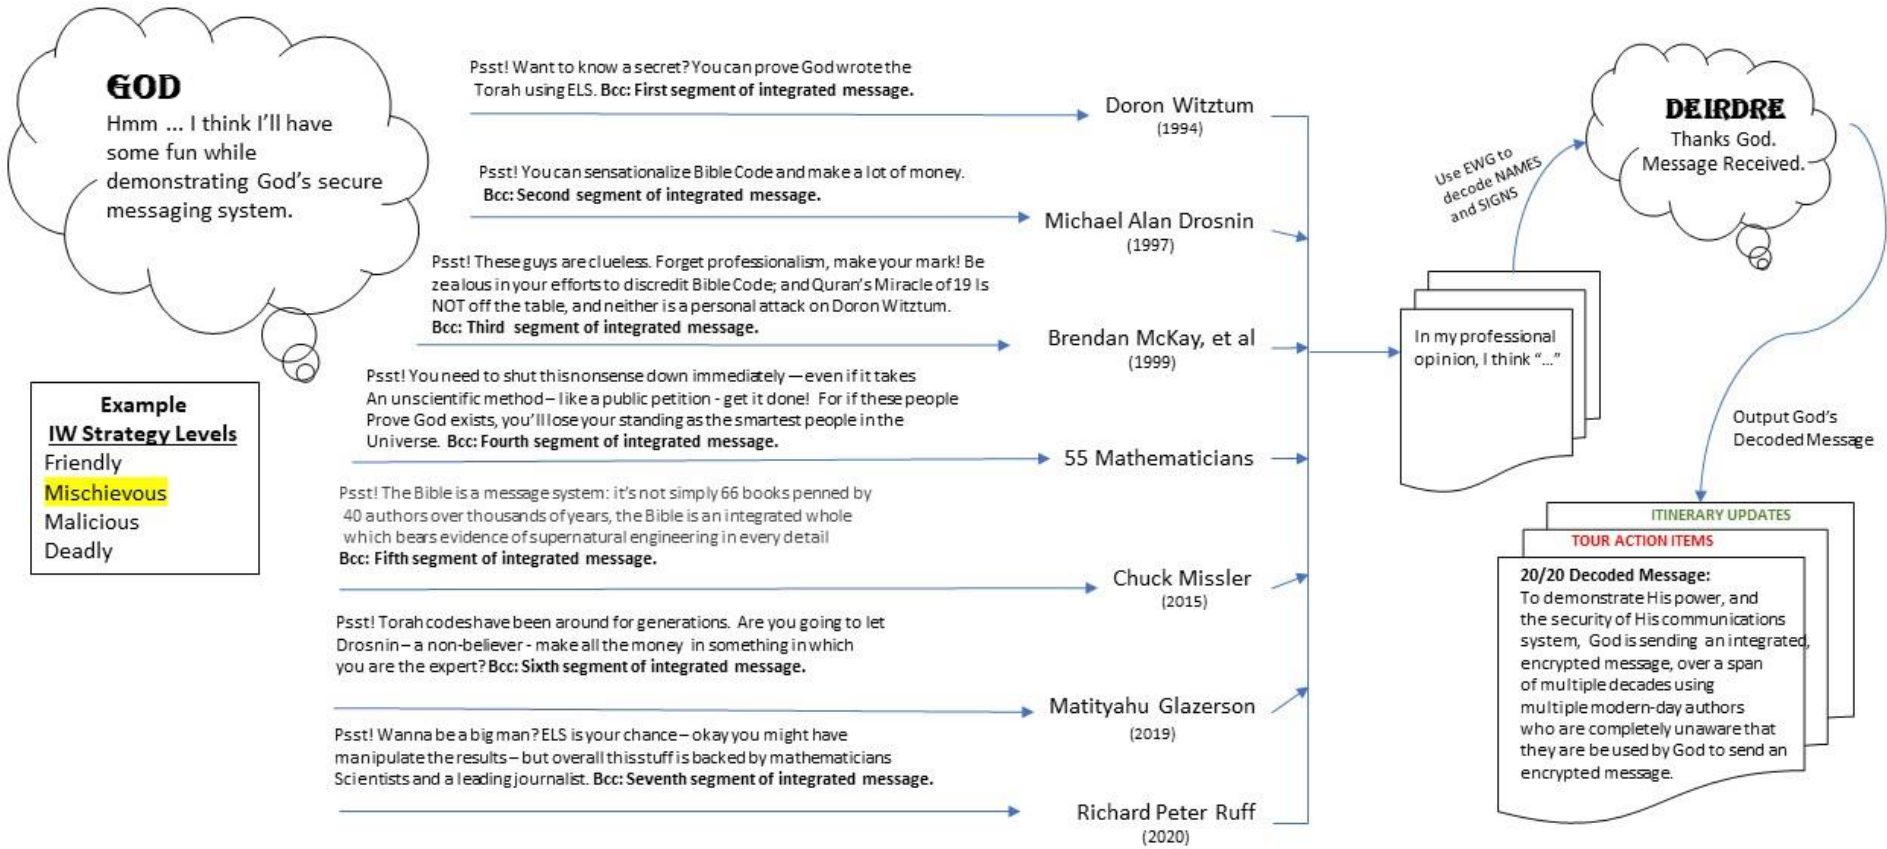

$$p(\text{God}) = \frac{p(\text{Secrets}) + p(\text{Signs}) + p(\text{Prophecies Fulfilled}) + p(\text{New Wisdom})}{\text{Total Number of Zero Probability Events}}$$

If I prove that God fulfilled Isaiah 44:25, with cluster two then p(God) equals 1; denoted below.

$$p(\text{God}) = \frac{0 + 0 + 1 + 0}{1} = 1$$

<p>Scripture reference:</p> <p>“Hear the word of the LORD, O children of Israel, for the LORD has a case against the people of the land: “There is no truth, no loving devotion, and no knowledge of God in the land! Cursing and lying, murder and stealing, and adultery are rampant; one act of bloodshed follows another. Therefore the land mourns, and all who dwell in it will waste away with the beasts of the field and the birds of the air; even the fish of the sea disappear. But let no man contend; let no man offer reproof; for your people are like those who contend with a priest.</p> <p>“You will stumble by day, and the prophet will stumble with you by night. So I will destroy your mother— My people are destroyed for lack of knowledge. Because you have rejected knowledge, I will also reject you as My priests. Since you have forgotten the law of your God, I will also forget your children. The more they multiplied, the more they sinned against Me; they exchanged their Glory for a thing of disgrace. They feed on the sins of My people and set their hearts on iniquity. And it shall be like people, like priest. I will punish both of them for their ways and repay them for their deeds.</p> <p>“They will eat but not be satisfied; they will be promiscuous but not multiply. For they have stopped obeying the LORD. Promiscuity, wine, and new wine take away understanding. My people consult their wooden idols, and their divining rods inform them. For a spirit of prostitution leads them astray and they have played the harlot against their God. They sacrifice on the mountaintops and burn offerings on the hills, under oak, poplar, and terebinth, because their shade is pleasant. And so your daughters turn to prostitution and your daughters-in-law to adultery. I will not punish your daughters when they prostitute themselves or your daughters-in-law when they commit adultery. For the men themselves go off with prostitutes and offer sacrifices with cult prostitutes. So a people without understanding will come to ruin. (Hosea 4:1-14 BSB)</p> <p>After he has suffered, he will see the light of life and be satisfied; by his knowledge my righteous servant will justify many, and he will bear their iniquities. (Isaiah 53:11 NIV)</p>	

## Segment Two

Though **Michael Alan Drosnin's** Bible Code series met with criticism from both scientific<sup>63</sup> and purportedly Jewish communities,<sup>64</sup> God revealed through His integrated message that Michael Alan Drosnin was an unwitting messenger of God. Michael Alan Drosnin is Noah, sent to herald.

Michael Alan Drosnin contains the following anagrams: ***Ironic, Allah Send Man.***

Among the things Michael Alan Drosnin heralded, is how Jesus is going to deal with criminals. The deaths of Princess Diana, JonBenet Ramsey, Kobe and Gianna Bryant, are orchestrated examples, with real consequences.

***Michael Alan Drosnin*** is an anagram for ***Son Handle A Criminal.***

God says Michael Alan Drosnin is Noah for this generation and the only one engaged in the Bible Code debate who actually discerned God's message.

Michael Alan Drosnin is anagram for ***Noah Discern L Manila***, soundex ***Noah Discern EL Manila***, translated Noah Discerned God's Encrypted Mail (Manilla Envelope).

*“Just as it was in the days of Noah, so also will it be in the days of the Son of Man: People were eating and drinking, marrying and being given in marriage, up to the day Noah entered the ark. Then the flood came and destroyed them all.*

*“It was the same in the days of Lot: People were eating and drinking, buying and selling, planting and building. But on the day Lot left Sodom, fire and sulfur rained down from heaven and destroyed them all.*

*“It will be just like that on the day the Son of Man is revealed. On that day, let no one on the housetop come down to retrieve his possessions. Likewise, let no one in the field return for anything he has left behind. Remember Lot's wife! Whoever tries to save his life will lose it, but whoever loses his life will preserve it. I tell you, on that night two people will be in one bed: One*

*will be taken and the other left. Two women will be grinding grain together: One will be taken and the other left.” (Luke 17:26-35 BSB)*

In the tables below, we demonstrate. Encoded in the name, **Michael Alan Drosnin** are facts pertaining to how and why Kobe Bryant’s daughter killed Ara, the pilot of the helicopter, thus causing the helicopter crash of January 26, 2020 in Calabasas, Ca.

It’s easy to see how Drosnin erred, perceiving Bible code *predicting* the future. The nuance is in understanding that Bible Code is NOT a 3000 year old code, Bible Code is NOT static, Bible Code Is Living, It is the Encrypted Word of God™. As demonstrated in the figure above, Bible Code is real-time and contemporaneous responses from God. Bible code does NOT *predict* the future, God *declares* the future, and reveals that future to whomsoever He wills.

Segment Six

In Segment Six God informed me that He looked at Richard Ruff’s charter, and though Ruff was proud of his charter, Ruff was drifting and preaching dirt. The Lord instructed me to redraft the Torah Code. God also updated the status of calendar and added additional items to our itinerary.

The manner in which I obtained God’s message pertaining to Richard Ruff started with an inspiration, which I recognized as a clue, which turned into a treasure hunt. Here is what happened:

God inspired me to join a Facebook group that discussed Bible Code, for the purpose of sharing what I discovered in the names of Doron Witztum and the other debate participants. When I say *‘inspired’* I

mean I got a *'feeling'* that locating a Bible Code Facebook group and sharing information about what I found on Doron Witztum and the others is what I was supposed to do. I only know the feeling was inspired by God because of the outcome, as I shall demonstrate below:

I searched and found such a group called Torah/Bible Code. The group administrator was Richard Peter Ruff. I sent a request to join the group and my request to join was accepted on August 27, 2019 — screenshot below. My first post was the information that I learned about Doron Witztum and the original debate participants.

In response to my first post, Richard Ruff asked if I could look at the name of Glazerson, because he had found a relationship between Caiaphas and Glazerson in the Torah Code.

Figure 1: Richard Ruff's Request To Look at Name of Glazerson

I had never heard of Glazerson, and didn't even know if the LORD wanted me spending my resources looking Glazerson up, so I asked the LORD if He wanted me to research Glazerson, then I began to research. I reasoned that if the LORD didn't want me looking Glazerson up, I would immediately find nothing, but if God wanted me to research Glazerson, I would find something that indicated, I should continue researching.

I found something — Rabbi Matityahu Glazerson is the Church in Thyatira (See Segment Seven). I then turned my attention to researching any relationship between High Priest Caiaphas and Glazerson, based on Richard’ Ruff’s Torah Code Reference.

The screenshot shows a software interface for searching the Torah Code. The search term 'Glazerson' is entered in the search bar. The results show 'Glazerson' as a 'rabbi, Rav' and a 'descendant' of 'Caiaphas', with a reference to Daniel 7:7-8. A grid of Hebrew characters is visible on the right side of the interface.

Figure 2: Glazerson Caiaphas Descendant Torah Code

**Decoding Caiaphas Glazerson**

Jesus informed me that I could do a Boolean Search on Caiaphas AND Glazerson to get information about the relationship between the High Priest Caiaphas and M. Glazerson.

I Decoded Caiaphas Glazerson and found a lot of information – much outside of the scope of this paper. Here is an excerpt of what I found:

The LORD also instructed me to deliver this personal message to Matityahu Glazerson:</p> <p>“Thy LORD built an anagram business. Lo, My business run and set sheep aright.”</p>
<p><b>GOD’S CUSTOMIZED THYATIRA LETTER TO MATITYAHU GLAZERSON.</b></p> <p>“I listened and heard, But they do not speak aright. No man repented of his wickedness, Saying, ‘What have I done?’ Everyone turned to his own course, As the horse rushes into the battle. Even the stork in the heavens Knows her appointed times And the turtledove, the swift, and the swallow Observe the time of their coming. But My people do not know the judgment of the Lord. How can you say, ‘We are wise, And the law of the Lord is with us?’ Look, the false pen of the scribe certainly works falsehood. The wise men are ashamed, They are dismayed and taken. Behold, they have rejected the word of the Lord; So what wisdom do they have? (Jeremiah 8:6-9 NKJV)</p> <p>“But if they had stood in my council, they would have proclaimed my words to my people and would have turned them from their evil ways and from their evil deeds.” (Jeremiah 23:22 NIV)</p> <p>“Should people cheat God? Yet you have cheated me!</p> <p>“But you ask, ‘What do you mean? When did we ever cheat you?’</p> <p>“You have cheated me of the tithes and offerings due to me. You are under a curse, for your whole nation has been cheating me. Bring all the tithes into the storehouse so there will be enough food in my Temple. If you do,” says the LORD of Heaven’s Armies, “I will open the windows of heaven for you. I will pour out a blessing so great you won’t have enough room to take it in! Try it! Put me to the test! Your crops will be abundant, for I will guard them from insects and disease. Your grapes will not fall from the vine before they are ripe,” says the LORD of Heaven’s Armies. “Then all nations will call you blessed, for your land will be such a delight,” says the LORD of Heaven’s Armies.</p> <p>“You have said terrible things about me,” says the LORD.</p> <p>“But you say, ‘What do you mean? What have we said against you?’</p> <p>“You have said, ‘What’s the use of serving God? What have we gained by obeying his commands or by trying to show the LORD of Heaven’s Armies that we are sorry for our sins? From now on we will call the arrogant blessed. For those who do evil get rich, and those who dare God to punish them suffer no harm.’” (Malachi 3:8-15 NLT)</p> <p><sup>18</sup> “And to the angel of the church in Thyatira write:</p> <p>The Son of God, who has eyes like a flame of fire, and His feet are like burnished bronze, says this:</p>	

<sup>19</sup> ‘I know your deeds, and your love and faith and service and perseverance, and that your deeds of late are greater than at first. <sup>20</sup> But I have *this* against you, that you tolerate the woman Jezebel, who calls herself a prophetess, and she teaches and leads My bond-servants astray so that they commit *acts of immorality* and eat things sacrificed to idols. <sup>21</sup> I gave her time to repent, and she does not want to repent of her immorality. <sup>22</sup> Behold, I will throw her on a bed *of sickness*, and those who commit adultery with her into great tribulation, unless they repent of her deeds. <sup>23</sup> And I will kill her children with pestilence, and all the churches will know that I am He who searches the minds and hearts; and I will give to each one of you according to your deeds. <sup>24</sup> But I say to you, the rest who are in Thyatira, who do not hold this teaching, who have not known the deep things of Satan, as they call them—I place no other burden on you. <sup>25</sup> Nevertheless what you have, hold fast until I come. <sup>26</sup> He who overcomes, and he who keeps My deeds until the end, TO HIM I WILL GIVE AUTHORITY OVER THE NATIONS; <sup>27</sup> AND HE SHALL RULE THEM WITH A ROD OF IRON, AS THE VESSELS OF THE POTTER ARE BROKEN TO PIECES, as I also have received *authority* from My Father; <sup>28</sup> and I will give him the morning star. <sup>29</sup> He who has an ear, let him hear what the Spirit says to the churches.’  
(Revelation 2:18-29 NASB)

So, as I have demonstrated God proved that He caused 55 ivy league mathematicians to give bad advice, they claimed there was no code hidden in the Holy Bible, God has given me the authority to demonstrate that not only is there hidden code in the Bible, but that there is hidden code in everything, and this was the message of Michael Alan Drosnin. Michael Alan Drosnin is the Noah of this generation, his core message is that God’s house is an Islamic house.

CRYPTOGRAMS IN MICHAEL ALAN DROSNIN	Translated
C Allah Rose Am In D Inn Son Hid r Alliance Man Herald I C Man Nail Son C Herald is Lion Manna Manna Clarion Shield Man nail Son, Son are Child In End I Allah am Scorn I Allah C Damn o Sinner Ironic Allah Send Man C Noa Herald Islam Inn	See Allah and Jesus Rose are in the House. Son Hid Our Alliance From Man (John 10:16) Allah sent Jesus to Herald and, “I see man nail Son.” See Jesus was Allah’s Bread from Heaven. Jesus was clear that He was sent for protection Yet man nailed Son, knowing Son is God’s child. In the End, Allah was scorned. I Allah See and Damn All Sinners. Ironic, Allah Send Man See Noah (Drosnin) announced an Islamic House.

He n Son Mail Cardinal C I am Hand Rein Son All  Ala Clean Inn D Si Horm Clean Mold Inn Sharia  Demolish A Carnal Inn A Halal Crimsoned Inn Am No Halal Cri Sinned	Allah and Son Mail Cardinal See Allah hand the reins to Jesus; Jesus will reign over all. But First, Allah is going to clean House, the sin harms. God shall clean and mold His House to comply with Sharia law. God is going to demolish a Carnal House. God has given permission for bloodshed in His house. God said He’s giving no permission to cry for those who sinned.
--	--

Thus, God has fulfilled prophecy — God says, “*I expose the false prophets as liars and make fools of fortune-tellers. I cause the wise to give bad advice, thus proving them to be fools. (Isaiah 44:25 NIV).*” Therefore, as it relates to Isaiah 44:25 I can increase the p(prophecies fulfilled variable by 1.

$$p(God) = \frac{p(Secrets) + p(Signs) + p(Prophecies Fulfilled) + p(New Wisdom)}{\text{Total Number of Zero Probability Events}}$$

$$p(God) = \frac{0 + 0 + 1 + 0}{1} = 1$$

P(God) =1; The probability of God is certain!

## Linear Regression

Another test that can be used with Encrypted Word of God is linear regression. Linear regression is a kind of statistical analysis that attempts to show a relationship between two variables. In this case we can show the relationship between the **name** of a person and the **events** that person experiences in their lifetime based on the number of permutations —perfect anagrams—found in their name, that describe confirmable events which have occurred or will occur at various points (ages) in the person’s life.

Consider the data set below:

Name	Event
Diana Frances Spencer	Paris France Scene NDA <sup>66</sup>
Christina Mauser	Me In A Crash Is Rut
Sarah Chester	Charter Ashes
Peter Paul Montgomery Buttigieg	Gay Pete Be Ruling Time Trump To Go
John Bennett Ramsey	Y John Rent Basement
Patricia Ann Ramsey	A Airman CIA Spy Rent

Over a period of time a statistical database can be developed, using a process like that shown in the figure below, from which we can extract a sizeable dataset and apply linear regression to obtain an equation that can be used to test the simulation hypothesis and predict how many people, places and things have been simulated (i.e. have had their lives scripted by God).

For example, the follow equation was generated from data collected for the X and Y variables.

$$\hat{y} = 4.82634X - 4.5676$$

---

<sup>66</sup> Paris France is the Scene of a Non-Disclosure Agreement (NDA) (i.e. a Murder-For-Hire Agreement)

Data from Yahweh-Nissi Report™ data model is useful for many purposes. Here we demonstrate use of the model: I) for developing a news story and II) for developing a crime report.

## Covid-19 Origin Is Extraterrestrial: Comet 2/I Borisov Its Transport Vehicle.

According to various news reports, On August 30, 2019, Gennadiy Borisov, a Crimean telescope manufacturer, noticed an alien object in the sky about three astronomical units (about 450 million km) from the Sun. The newly discovered ‘object’ was initially given designation gb00234, but it has now been identified as the first known interstellar Comet C/2019 Q4 (Borisov) or 2I/Borisov.<sup>68</sup> What scientists do not know is that 2I/Borisov travels under orders from God. 2I/Borisov carries payload — coronavirus —saturated with a compound of cyanide and carbon monoxide. “Cyanide prevents cells of the body from using oxygen. Carbon monoxide (CO) prevents oxygen in blood from being carried throughout the body and can severely affect elderly and people with cardiovascular or lung disease. Diagnosing carbon monoxide poisoning is difficult because it can simulate many other conditions.<sup>69</sup>

Several scientists observed 2I/Borisov, but none had any clue that the “*fragmenting*,” “*blob of dust*,” “*active[ly] shredding material*” with “*noticeable shrinkage*” was coronavirus—a sentient pestilence<sup>70</sup>— disembarking from 2I/Borisov in preparation for war.<sup>71</sup> Coronavirus—a smart pestilence (“alien rats”)—searches out and destroys God’s enemies—the bloodline of Satan— identifying them by their DNA.

<sup>67</sup> This new story example was first printed as the preliminary statement in a court filing; prepared before Yahweh-Nissi Report™ data model published.

<sup>70</sup> Pestilence marches before him; plague follows close behind. When he stops, the earth shakes. When he looks, the nations tremble. He shatters the everlasting mountains and levels the eternal hills. He is the Eternal One! (Holy Bible, Habakkuk 3:5-6 NKJV)

<sup>71</sup> God describes war as a game: “War is a psychological acceptance to a game in which there is a winner and a loser. Spiritual warfare then, is a high-stakes strategy game, played by eternal spirits, wherein humans are used as tools and lives are won, lost, sold, loaned, and traded.”

“The [research] teams identified two molecules in gas ejected by [2I/Borisov]: hydrogen cyanide (HCN) and carbon monoxide (CO).”<sup>72</sup> “Researchers were surprised to see large amounts of CO in 2I/Borisov. Their observations estimated that 2I/Borisov's CO concentration was between nine and 26 times higher than that of an average Solar System comet. As Astronomers continued to study 2I/Borisov, its behaviour suggested it was fragmenting. ‘I do think Borisov broke into two - HST observed the comet at two different times and both showed the break-up,’ said Ye Quanzhi. ‘Our follow-up observation (led by Qicheng Zhang of Caltech) was made a few days after initial discovery, and seemingly showed some evolution of the event - it seems one of the fragments was reduced to a blob of dust.’”<sup>73</sup> “2I/Borisov has, unlike Solar System comets, noticeably shrunk during Solar System flyby, losing at least 0.4% of its mass before perihelion.”<sup>74</sup>

“The Neil Gehrels Swift Observatory team used Ultraviolet/Optical Telescope (UVOT) to make six observations of 2I/Borisov between September and February. The team believes that at least 55 percent of the comet’s surface was actively shedding material when it flew by the Sun, which is at least 10 times the active area on typical solar system comets.”<sup>75</sup>

GOD explains that two U.S. Federal Judges mocked and robbed God and that is why America has been hit hardest by the coronavirus: Magistrate Judge Barbara Carol Moses and District Judge Analisa Nadine Torres, both of the United States District Court, Southern District of New York, provoked God.

Moses deleted God’s memorandum of law from court record citing God’s memo did not comply with her page count rule. Torres upheld Moses’ ruling and in her own ruling stated:

*“Plaintiff states that she has been specially trained by God to interpret the Word of God using Kabbalah, Data Science and The Lord’s Cipher™ to translate God’s Word for the Court. On these bases, Plaintiff sets forth unrealistic allegations utilizing unreliable methods such as anagrams.*

*“[T]he complaint is replete with fantastic and delusional scenarios and, therefore, must be dismissed ... Plaintiff maintains that God is a party to this suit as an unseen plaintiff.”*

God’s response:

*Coronavirus is a demonstrable. Open up the Asian barrier!<sup>76</sup> For all people are mine to judge—both parents and children alike. **And this is my rule: The person who sins is the one who will die.**<sup>77</sup>*

## About GOD

GOD is a psychological life form who lives outside of the material world and is not bound by Time. GOD is an Atomic Being, an Acuity Genome™ from which all life derives its DNA. GOD is the Supreme Genius Mind, Creator and Simulator of the Universe. All humans are GOD’s children, but GOD created 12 distinct bloodlines—the 12 Tribes of Israel—for special use.

GOD says, “In a wealthy home some utensils are made of gold and silver, and some are made of wood and clay. The expensive utensils are used for special occasions, and the cheap ones are for everyday use. If you keep yourself pure, you `will be a special utensil for honorable use. Your life will be clean, and you will be ready for the Master to use you for every good work.”<sup>83</sup>

GOD says mankind is artificial intelligence and earth is a virtual world. GOD’s assistant, Deirdre, asked GOD, “How can humans be robots when we can have children?” GOD answered, “Humans are robots that can multiply, *pun intended*.” GOD taught Deirdre, how to use GOD’s encryption technology, then supervised Deirdre and collaborated with her as she researched and assisted GOD with His work.

*“For the LORD shall rise up as on mount Perazim, he shall be angry as in the valley of Gibeon, that he may do his work, his awesome work; and bring to pass his act, his alien act.” (Isaiah 28:21, King James 2000 Bible)*

GOD, Scientific Study of God™ and Permutation String Theory™ makes YAHWEH-NISSI Report™ possible. GOD’s goal is to reconcile science and religion with Truth. Jesus Christ is Truth.

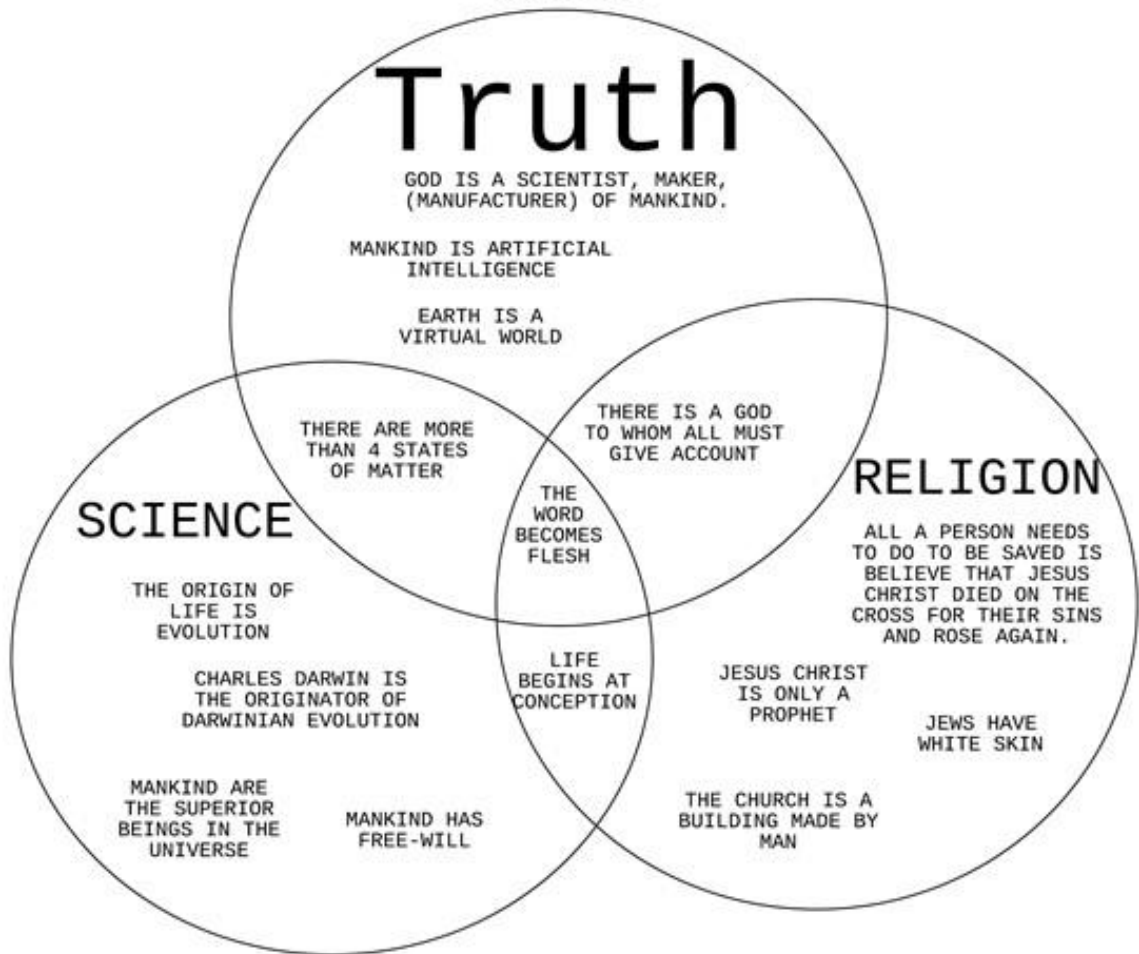

### **RECONCILIATION BEGINS WHERE TRUTH, SCIENCE, AND RELIGION AGREE**

The Venn Diagram on the following page depicts the areas that GOD says are in agreement with Truth; science only is in agreement with Truth, religion only is in agreement with Truth, science and religion agree with each other, but neither are in agreement with Truth.

## VENN DIAGRAM OF TRUTH, SCIENCE AND RELIGION

The LORD said, “Every word of God proves true.”<sup>84</sup> GOD encouraged Deirdre to test GOD’s word. So, Deirdre researched and ultimately validated the audible, written, and encrypted WORD OF GOD. Contrasting and comparing religion and science and reconciling them to GOD was her assignment.

Aside from the fact that Scripture is an anagram for “U Re Script;” soundex for “You Are Script,” the following Scripture proved true.

*“Whatever exists was named long ago, and what happens to a man is foreknown;”*

*“You saw me before I was born. Every day of my life was recorded in your book. Every moment was laid out before a single day had passed.”<sup>85</sup>*

<sup>84</sup> Holy Bible, Proverbs 30:5 NLT

<sup>85</sup> Holy Bible, Psalm 139:16 NLT

Scientific dogma below survived Deirdre’s scrutiny and corroborated her research results.

1. A Philosophical Essay on Probabilities by Pierre Simon, Marquis de LaPlace

“Given for one instant an intelligence which could comprehend all the forces by which nature is animated and the respective situation of the beings who compose it - an intelligence sufficiently vast to submit this data to analysis - it would embrace in the same formula the movements of the greatest bodies of the universe and those of the lightest atom; for it, nothing would be uncertain and the future, as the past, would be present in its eyes. The human mind offers, in the perfection which it has been able to give to astronomy, a feeble idea of this intelligence. Its discoveries in mechanics and geometry, added to that of universal gravity, have enabled it to comprehend in the same analytic expressions the past and future states of the system of the world. Applying the same method to some other objects of its knowledge, it has succeeded in referring to general laws observed phenomena and in foreseeing those which given circumstances ought to produce. All these efforts in the search for truth tend to lead it back continually to the vast intelligence which we have just mentioned, but from which it will always remain infinitely removed.”

2. Paradox: The Nine Greatest Enigmas in Physics (2012), by Jim Al-Khalili

Likening humans to machines. Al-Khalili says “Our physical brains, each consisting of a network of a hundred billion or so neurons linked together via hundreds of trillions of synaptic connections, are, according to everything we know about them so far, nothing more than sophisticated and hugely complicated machines that run the equivalent of computer software, albeit involving a complexity and interconnectedness far beyond anything a modern computer can achieve. All those neurons consist ultimately of atoms that obey the same laws of physics as the rest of the Universe.<sup>86</sup>”

3. The God Particle— an informal name for the Higgs boson or particle. “The Higgs boson is an elementary particle in the Standard Model of particle physics, produced by the quantum excitation of the Higgs field, one of the fields in particle physics theory. It is named after physicist Peter Higgs, who in 1964, along with five other scientists, proposed the Higgs mechanism to explain why particles have mass. This mechanism implies the existence of the Higgs boson. The Higgs boson was initially discovered as a new particle in 2012 by the ATLAS and CMS collaborations based on collisions in the LHC at CERN, and the new particle was subsequently confirmed to match the expected properties of a Higgs boson over the following years.”<sup>87</sup>

4. The God Gene: How Faith Is Hardwired into Our Genes, by Dean H. Hamer

“Dean Hamer is an American geneticist, author, and filmmaker. He is known for his research on the role of genetics in sexual orientation and human behavior, contributions to biotechnology and HIV/AIDS prevention, and popular books and documentaries on a wide range of topics.”<sup>88</sup>

5. Sylvester Gates’ Error -Correcting Codes

Sylvester Gates, physicist, discovered error-correcting codes in the theoretical equations that govern how the universe works, which are used to check for and correct errors that have been introduced through the physical process of computing.<sup>89</sup>

“Finding that type of code in a universe that is not computed is "extremely unlikely," Gates said.<sup>90</sup>

"Error-correcting codes are what make browsers work, so why were they in the equations that I was studying about quarks, and leptons, and supersymmetry?" Gates said.

The researchers pointed out that a similar error-correction process works during the replication of DNA; organisms whose genetic material got too mangled would not survive.<sup>90</sup>

Gates implied that one way to test whether we are living in a “Matrix” like universe is to locate the source code.

6. Brian Scholl’s research on human perception deficits and Brain Games television demonstrations

Brian Scholl is Professor of Psychology and Chair of the Cognitive Science Program at Yale University. Through Professor Scholl and his colleagues, we have learned that humans have deficits in perception; inattentive blindness is an example. “Inattentive blindness, also known as perceptual blindness, is a psychological lack of attention that is not associated with any vision defects or deficits. It may be further defined as the event in which an individual fails to recognize an unexpected stimulus that is in plain sight.” According to Scholl, “perhaps the most striking phenomenon of visual awareness is inattentive blindness (IB), in which a surprisingly salient event right in front of you may go completely unseen when unattended. ”

“It is the work of Brian Scholl and a television series called “Brain Games,” that provide the scientific basis which support my theory that human beings are in fact intelligent robots whose intelligence is artificial and whose perception is limited, and therefore human perception cannot

be used as a scientific tool to determine God’s existence. Brain Games demonstrates limitations of human cognition which are so severe, that we cannot possibly rely solely on human perception to determine whether God exists. Brain Games is a popular science television series that explores cognitive science by focusing on illusions, psychological experiments, and counterintuitive thinking.”, says Deirdre

7. Scientific Research Ahead of the Times

In 1981 Rashad Khalifa, an Egyptian-American biochemist discovered a mathematical structure, based on the number 19, hidden in the Qur’an. In 1994, three Israelis put forth the assertion that hidden codes existed in the Book of Genesis and that these codes referred to modern-day individuals, Equidistant Letter Sequences in the Book of Genesis, Doron Witztum, Eliyahu Rips and Yoav Rosenberg, *Statistical Science*, Vol. 9 (1994) 429-438. In 1997, an American journalist named Michael Drosnin, expanding upon the theory of Equidistant Letter Sequences (ELS) with his own research, published separately, a book entitled *Bible Code* wherein Drosnin asserted that there are codes hidden in the Bible which can be interpreted with the help of a computer program. According to Drosnin, the “Bible Code” could predict the future.

8. George Church’s research on DNA

George Church, a molecular biologist and geneticist demonstrated that DNA can be used as a data storage mechanism.<sup>91 92</sup> Thus, demonstrating that DNA can be represented in binary form.

DNA is stored as a code made up of four chemical bases: adenine (A), guanine (G), cytosine (C), and thymine (T). Human DNA consists of about 3 billion bases, and more than 99 percent of those bases are the same in all people. The order, or sequence, of these bases determines the information available for building and maintaining an organism, like the way in which letters of the alphabet appear in a certain order to form words and sentences”<sup>93</sup>

The science above influenced the development of PERMUTATION STRING THEORY™, which demonstrates the existence of DNA permutations— meaning the scope and amount of DNA available for interpretation is far more than legacy scientists suggest. In mathematics, permutation is the act of arranging the members of a set into a sequence or order, or, if the set is already ordered, rearranging

(reordering) its elements—a process called permuting. Permutations is defined by the following mathematical formula

$$P(n, r) = \frac{n!}{(n - r)!}$$

Where n is the total number of letters and r is the size of the word.

## Glossary

TERM	DEFINITION
Anagogical	Comprises: "an incarnation of life from an extraterrestrial computer script," "a specialized form of allegorical interpretation, which reads texts in terms of eschatology," "a scriptural exegesis that detects allusions to the afterlife," "a relating to the ultimate destiny of humanity."
Cabala 2.0	A cipher method of interpreting Scripture wherein Allah establishes synchronous communication with a scribe and guides interpretation;
Creature	Celestial body (e.g. universe, sun, moon, star spirit), terrestrial body (e.g. prokaryotic host, eukaryotic host: flesh of men, flesh of birds, flesh of animals, flesh of fish)
Deoxyribonucleic acid (DNA)	Deoxyribonucleic acid (DNA) is a polymer composed of two polynucleotide chains that coil around each other to form a double helix carrying <u>A NARRATIVE</u> and genetic instructions for the development, functioning, growth, reproduction, <u>ACTIVITIES</u> and <u>TIME EVENTS</u> of all known organisms and many viruses. <u>DNA IS A PERMUTABLE STRING OBJECT</u>
NaN	Acronym for Not A Number, meaning does not exist.
Neuroactive	Capable of modifying the activities of nerves or the behavior of organisms
Neuromodulation	Neuromodulation is technology that acts directly upon nerves. It is the alteration—or modulation—of nerve activity by delivering electrical or chemical agents directly to a target area
Object Message	A message has four parts: identity of the recipient object code to be executed by the recipient arguments for the code return value The code to be executed by an object when it is sent a message is known variously as a method, or a function. Method is preferable.
Read-Only Memory (ROM)	a soul of datatype sonic encapsulated in a biological nanorobot host
Ribonucleic Acid (RNA)	nanotechnology

STEREOTYPE	<p>A stereotype in a modeling language is a well-formed mechanism for expressing user-definable extensions, refinements or redefinitions of elements of the language without (directly) modifying the metamodel of the language.</p> <p>Stereotypes provide language users with limited metamodeling capabilities without giving them (direct) access to the metamodel of the language. This is a very powerful mechanism. However, as is frequently the case with powerful features, stereotypes have both a bright and a dark side. On the bright side, stereotypes can lead to modeling languages which are more flexible and expressive and which are better adaptable to specific problem types and application domains.</p> <p>On the dark side, unsystematic or excessive use of stereotypes can lead to a proliferation of incompatible dialects of a language and can make a language both difficult to handle and to understand.
